Patil Blames Centre For Delay

Bangalore, Feb. 21

Sri Veerendra Patil, former Chief Minister, yesterday criticised the Centre for failing to come to the help of the State Government in implementing the land reforms "although we were very eager to implement the ceiling provisions as expenditiously as possible".

Commenting on the Prime Minister's statement on the delay in the implementation of land reforms in Mysore, he said compared to Mysore other States in which the Congress (R) was in power lagged far behind.

He asked, "What is it that the Centre had done in implementation of land reforms in the States where their own party is in power ?"

Sri Patil claimed that except the implementation of the ceiling provisions under the Act, there was nothing else to be done in Mysore. Even for this he had taken action, but this Ministry was toppled by the Congress (R) last year.

Urs Opposes More Powers

Bangalore, Feb. 21

MPCC President Devaraj Urs yesterday strongly opposed the demand for greater autonomy to the States.

"In my view the present powers visualised for the States in the Constitution are quite sufficient for them to carry on the administration effectively", he said.

The Congress (O), Sri Urs blamed, had been desperately exploiting the border dispute and the Cauvery waters issue to its advantage.

The Congress (O) had acted with the sole objective of gaining political advantage to itself on these twin issues by keeping them unresolved, he accused.

Sri Urs alleged that the Cauvery river water issue was "badly handled" by the former Chief Minister, Sri Veerendra Patil. In his anxiety to get clearance for the Hemavathi project to satisfy some vested interests, Sri Patil was even reported to have agreed to abide by the 1924 agreement.

However, Sri Patil later in a statement denied the charge made by Sri Urs.

PM On Nixon-Mao Talks

Prime Minister Indira Gandhi said in Delhi yesterday that if any decision was taken at the current Nixon-Chou parleys to decide the fate of Asia, it would neither be acceptable to India nor to other Asian countries.

If the meetings between the American and Chinese leaders are meant to forge friendship, it is welcome to us. But apprehensions are being expressed that the talks are meant to form some sort of a new power group. If it is so, India, though a small nation, will not be bound by any such decision, which seeks to dictate terms to Asian countries", she said.

Rly. Divisional Office To Remain In Mysore

Rly. Workshop To Be Expanded

Mysore, Feb. 24

Railway Minister Hanumanthiya today appealed to the employees to extend their full co-operation in putting down theft of railway properties, which was as much as Rs. 15 crores per year.

He was speaking on the occasion of inaugurating the 'Mysore Express'—diesel-hauled chair-car express train—between Mysore and Bangalore City, displacing the present diesel-car.

Sri Hanumanthaiya said that railway employees had brought a new chapter by their full co-operation in running trains in time. For this, he said all employees from the Chairman to the gangman deserved his appreciation.

He said he had instructed to pay cash prizes to the employees of the Mysore Railway Workshop for keeping up his (Minister's) six-month time limit for bringing up this chair-car train.

He assured that Mysore Railway workshop would be expanded and there would be no retrenchment. If Mysore-Bangalore line was converted into broadguage, this workshop would also become broadguage shop.

Sri Hanumanthaiya also assured that the Divisional office would not be shifted from Mysore to Bangalore. He said he was trying to shift one or two offices to Mysore.

He promised to see that the diesel-rail car would be run somewhere in the State.

The Railway Minister called for proper co-ordination between the rail and road traffic, thus avoiding unnecessary competition

Earlier, Sri Channabasappa, General Manager, Southern Railway, welcomed the gathering and said this was the first vestibule chair-car to be introduced in metre guage. This train will take two hours and 50 minutes to reach Bangalore, with a capacity of 375 third class and 32 first class seats. The cost of the coaches was Rs. 16 lakhs and Rs. 1.5 lakhs for furnishing.

Sri H. M. Chatterje, member of Railway Board, Sri Tulsidas, MP and Sri K. Puttaswamy, spoke.

Sri G. S. Raman, divisional superintendent, proposed a vote of thanks.

Broad Gauge Ruled Out

Mysore, Feb. 25

Railway Minister Hanumanthaiya yesterday turned down the demand for conversion of the Mysore-Bangalore metre gauge into broad gauge and construction of Chamarajanagar-Sathyamangalam rail line.

Laying the foundation stone of an under-bridge at the railway crossing at Yadavagiri, the Railway Minister said that the Southern Railway was incurring huge losses every year owing to stiff road competition. He did not want further losses by taking up these works.

But, he laid down three conditions and said if these were accepted by the State Government, the two projects might be taken up. They are stopping plying of MSRTC buses, cancellation of all licenses for private tourist buses and stopping of lorries and taxis.

He said that after the elections he would discuss with the State Government regarding the unhealthy road competition.

He assured that the Mysore-Chamarajanagar and Mysore-Arsikere trains would be speeded up.

Sri K. N. Somasundaram, Municipal President, welcomed the gathering.

PM WARNS BIG NATIONS

Prime Minister Indira Gandhi yesterday warned some big powers attempting to interfere in the Kashmir affairs and declared that "India won't tolerate any interference there".

Making an indirect reference to the Chinese stand in Nixon-Chou communique, she said in a public meeting at Ranchi that there were countries which wanted peace in Asia but tried to create problems in Kashmir by saying that there was "discontent" there.

Taking strong exception to the attempt to interefere in the Kashmir affairs Smt. Gandhi said, "It will create uncertainty about the future and will not at all be congenial to the peace and tranquillity in this region".

She warned the country that a danger of war still persisted because of the failure of certain countries to recognise the realities in Bangla Desh.

INJUSTICE BY RAILWAY MINISTER

Charge Civic Fathers

Mysore, March 1

The civic fathers yesterday charged the Railway Minister of showing discrimination to Mysore by rejecting the demands for Mysore-Bangalore broad gauge and Chamarajanagar–Satyamangalam rail link.

At the city Municipal Council, Sri J. M. Coutinho of Congress described the conditions specified by the Minister for the conversion of the Mysore-Bangalore line into broad gauge as "impracticable".

When the policy of the Railways was to change over from metre gauge to broad gauge all over the country, it was surprising that conditions had been put by the Minister. "Who is going to listen to these impracticable conditions", he asked.

Another Congress member, Sri M. K. Lingiah, accused the Minister of "injustice" to Mysore District. Before becoming the Railway Minister, Sri K. Hanumanthaiya himself had supported the Chamarajanagar-Satyamangalam rail line, he said.

Sri Lingiah wanted a delegation to meet the Governor to impress upon him the demands of Mysore and to express the feelings of the people regarding the statements of the Railway Minister.

HOTEL IN PALACE OPPOSED

The converson of Lalitha Mahal Palace into a hotel was strongly opposed by Sri Coutinho, Krishna and Smt. Kamala Raman. It should be kept as a monument for a noble purpose or as a tourist attraction, they suggested.

The sudden springing up of shops in the footpaths of Sayaji Rao Road and mobile fruit stalls around the Devaraja Market Clock Tower in the evenings causing inconvenience to pedestrians and traffic was pointed out by Messrs Coutinho and M. Shivanna.

CHINA BAZAAR

A "China Bazar" was coming up every evening on the Sayaji Rao Road footpaths as in Madras. Scores of pavement shops would come up causing inconvenience to the public, Sri Coutinho said.

Sri Hakim Sheriff wanted better facilities in Government primary schools. He made charges of corruption against certain officials of the Municipality.

The delay in replacement of street bulbs by the Electricity Board was criticised by Messrs Shivanna, Krishna, Ramakrishna and Ramadass.

Sri B. C. Lingiah opposed the proposal of five-day week in some nationalised banks.

POLLING IN CITY TOMORROW

Mysore, March 4

Mysore City and a part of the District will go to polls tomorrow to choose eight legislators from among 40 contestants.

Congress has put up candidates in all the eight constituencies, Congress (O) in 6, Jan Sangh 4, Swatantra and Socialist Party 2 each, CPM and Janatha Paksha 1 each and Independents 16.

There are straight contests in H. D. Kote between Messrs H.B. Cheluviah (Congress) and R. Peeranna (Cong. O) and in Periyapatna between Messrs H.M.Channabasappa (Cong) and K. P. Kariyappa (Cong.O). There is triangular contest in T.Narasipur where Mr. Rajasekhara Murthy, former Congress (O) Minister is opposing Messrs K.Kempeere Gowda (Congress) and K. Venkatesh (Jan Sangh).

There are six candidates in Hunsur and eight in K.R. Nagar.

KEEN FIGHT

There is a prestigious contest in the Chamundeswari constituency where former Minister K. Puttaswamy is facing stiff opposition by Independent candidate K. Javare Gowda. Sri Gowda, a rebel Congressman and President of the Garadi Sangha has done solid work particularly in the taluk rural areas, where usually the percentage of voting is high. He has been able to break Kumbarakoppal, the traditional stronghold of Sri Puttaswamy. As a student leader he is banking on the support of the youth also.

Sri Puttaswamy, a veteran in political field, has the experience of knowing his constituency thoroughly. Although this might give hime an edge, it will be no surprise if Sri Javare Gowda wins by a narrow margin. Even the success of Sri Puttaswamy will be only by "marginal votes".

The third candidate, Sri M.B. Beerappa of Jan Sangh will bag the Kuruba votes in the area, cutting the share of Sri Puttaswamy. Sri M.N. Thimmiah, State Parliamentary Party President of the Socialist Party, might not cause great impact.

SURE WIN

The re-election of Sri Aziz Sait of Congress is said to be "sure" in the Narasimharaja constituency, although Sri A. Ramanna of Janatha Paksha, backed by Congress (O), is the main rival to him. The three Independent candidates here are Messrs My. Na. Gopalakrishna, Ramakrishna Bhagavathar and Rasheed Ahmed Khan.

The largest number of candidates (9) contesting are in Krishnaraja. The main rivals to Congress candidate D. Suryanarayana, who is the former DCC President, are Sri H. Gangadharan (Jan Sangh) and M. Venkatalingiah (Independent).

The candidates in this constituency have considerable support among different sections. Messrs Venkatalingiah, Srikanta Sharma, (Ind), K. Siddiah (Cong.O), Vedantha Hemmige (Socialist) and B.A. Belliappa (CPM), as sitting or former Municipal Councillors, can depend upon their civic constituencies.

Jan Sangh's Gangadharan appears to have an edge over the other candidates. Besides the "good canvassing" done by the party workers, he is expected to poll votes from Lingayat community.

DIVIDED OPPOSITION

Sri Venkatalingiah claims to share Vokkaliga votes in Nazarabad, Ittigegud and other pockets. Sri K. Siddiah is likely to poll a major portion of the Harijan votes. Sri Belliappa is another candidate who will share the Harijan votes.

The Brahmin votes will be divided between Messrs. D. Suryanarayana, Srikanta Sharma and Vedantha Hemmige. Sri Gangadharan might also get some votes because of Jan Sangh workers.

Sri Suryanarayana is thus facing a stiff opposition. Though not on his personality, but because of the party he might have an edge over other candidates.

Sri H.K. Anantha is another candidates in the field. Sri T. Anantha Rao of Swatantra has announced his retirement.

In all 5,47,923 voters will exercise their franchise in 972 booths. Polling will be held from 7-30 a.m. to 5-30 p.m.

The largest turnout was in Andhra Pradesh where an estimated 60 per cent voted. The smallest turnout was in Himachal Pradesh, where intermittent rain and snow kept the polling low at an estimated 40 to 45 per cent.

Border Issue

Finance Minister Chavan said in Belgaum yesterday that the Mysore–Maharashtra boundary question would be solved by Parliament and its decision would be binding on all concerned.

VIOLENT CLASHES IN TUMKUR

The thatched roof of a hotel and the pandal of the Congress office were set on fire in poll incidents in Tumkur yesterday.

Some persons not finding their names in the voters' list are reported to have indulged in violence. Five persons were injured in the stone throwing. Police have arrested 25 persons. Section 144 Cr. P. C. has been promulgated till March 12 banning processions.

Polling In 2 States Today

Polling will be held in 86 constituencies—67 in Rajasthan and 19 in Manipur—today. This is the minimum during any day of the poll week. The electorate in these constituencies is about 52 lakhs.

POOR VOTING IN MYSORE CITY

Mysore, March 6

Polling in Mysore District was held on a dull note yesterday. Particularly in the city(50%)and towns voters turned out at the polling booths only in small numbers.

Whereas, in many of the villages the voting was brisk. In Mysore taluk in villages likeHinakal, Rattehalli the percentage was 65 to 75.

The polling passed off peacefully in the city as well as in the district.

LOWEST IN NARASIMHARAJA

The lowest percentage of voting (44%) was recorded inNarasimharaja constituency. Even the Muslim voters came in small numbers. The contest was keen mainly between Congress candidate Aziz Sait and Janata Paksh'a A. Ramanna. Sri Ramanna is stated to have polled well.

50% IN KRISHNARAJA

In Krishnaraja, the official figure of voting was 50.6 per cent. While the Jan Sangh workers had consolidated in the last 24 hours in favour of Sri H. Gangadharan, the Congress appeared to have failed to come up to the expectations. The Congress candidate here is Sri D. Suryanarayana. Sri M. Venkatalingiah and Sri Srikanta Sharma, Independents, are also stated to have polled well.

57% IN CHAMUNDESWARI

The polling was dull in the city part of the prestigious Chamundeswari constituency where Sri K. Puttaswamy of Congress has close fight with Sri K. Javare Gowda Independent. The rural parts of the constituency have reported good turnout. The percentage was 57.

LEPERS VOTE EN MASSE

Nearly 140 lepers were among those who exercised their franchise in a booth in Sayaji Rao Road.

The percentage of polling in T. Narasipur, where former Minister Rajasekhara Murthy is facing two opponents was 61.

The enthusiasm witnessed during the mid-term Lok Sabha elections were lacking on the part of the voters. Long queues were to not be seen at the polling booths. The educated and the rich and middle class were almost indifferent.

The poor to moderate voting in the State might upset the calculations of the various parties and candidates who had based their performance on the basis of the heavy polling.

Walk-Out In Ml. Council

Mysore, March 14

Two Opposition members, Messrs Srikanta Sharma and Vedantha Hemmige, yesterday walked out of the Municipal Council in protest against the Council's decision to increase the price of green grass grown in the sewage farm from 50 paise to 60 paise for each bundle of 10 kgs.

When the proposal came for consideration, Sri Chowdiah and Sri Papanni of the Congress complained that good quality grass was not being supplied from the farm. There was less quantity in each bundle, they said.

Sri Hemmige and Sri Sharma opposed the proposal and said that it would affect mostly the poor who were buying from the farm.

Instead of enhancing the price of grass, steps should be taken to check loopholes in the Municipality and increase revenue, they said,

Film Review :

VAMSHAVRUKSHA

"Vamshavruksha" the Kannada film based on Dr. S.L. Bhyrappa's novel of the same title, continues the new pace set by "Samskara", the first President's award winner, in the Kannada film world by the young, enthusiastic experimentalists of the Kannada stage, The film is presently being screened in the Olympia Talkies.

The film has already won laurels both by the cinegoers and the Press as "a monument in celluloid" Talageri excels in his role of Shrotri. New-comer L. V. Sharada, though resembles Kalpana in her appearance and acting, plays the role of Kalyani well. But, it is Girish Karnad and B. V. Karanth who disappoint. Their performance is good only in patches. On the other hand they have shown their talentas good direcastors.

"Vamshavruksha", of course, is better than "Samskara", but when compared to the novel the film could have been still better. No doubt, "Vamshavruksha" takes Kannada film production one step high in the new trend.

Walk-Out In Civic Meeting

Mysore, March 21

The Opposition members in the City Municipal Council yesterday strongly protested the consideration of the 'delayed and incomplete" administration report for 1969-70 of Municipal Council and staged a walk-out.

After the report was tabled by Commissioner C. Gopal Reddy, Sri L. Chikkarangappa moved a resolution and said that the report had been delayed by nearly 20 months and therefore it was against Section 302 of the Municipalities Act.

The Commissioner during the debate informed that the printing press which had undertaken the printing work had delayed the work by nearly a year. Therefore, there was delay in placing the report before the House.

After discussion for more than one hour, the resolution was voted down, four Opposition members voting in favour and 10 ruling Congress members voting against.

Again Sri Chikkarangappa raised a point of order and said the report was incomplete as it did not contain the review of the previous year's administration report as made by the Government. The report, hence, could not be considered unless it contained the review as required under the rules.

He also pointed out a number of mistakes and irregularties in the report.

When Vice-President D. Appajappa, ruled out the point of order, all the four Opposition members walked out of the House in protest against the ruling.

The meeting later adopted the administrative report.

The Municipal Commissioner in his introductory remark said the Municipality was providing facilities as far as possible to the rate payers.

HIGH TAXES REASON FOR EVASION

The Wanchoo Committee on Direct Taxes in its report has said prevalence of high rates of taxation is "the first and foremost reason for tax evasion".

In its report presented to Parliament yesterday, it has estimated the income on which tax was evaded for 1968-69 at Rs. 1,400 crores.

The Committee has recommended a wide range of administrative and legislative reforms to prevent and unearth black money which it said, had become "a parallel economy" in India.

The maximum marginal rate of income-tax, including surcharge, should be brought down from its present level of 97.75 per cent to 75 per cent, it recommends.

It has suggested substitution of sales tax by excise duty as far as possible.

The Committee has recommended that Ministers and senior officers should avoid attending social functions sponsored or organised by known tax evaders. The law should also be suitably amended to disqualify such persons from holding any public elective office for a period of six years.

It has also recommended Government financing the elections as in Japan and West Germany. Reasonable grants in aid should be given by the Government to national political parties.

LATHI-CHARGE CONDEMNED

Mysore, March 22

The police lathi-charge on women workers of the Chamundi Coffee Curing Works has been strongly condemned by Sri Srikanta Sharma, Municipal Councillor and Sri S. Somasundara Sharma, labour leader.

Sri Srikanta Sharma said that the police instead of helping these women workers to get justice should help the management by beating the women to suppress their trade union rights was unpardonable.

He has called upon the Government to institute a judicial enquiry into the "police excesses".

Sri Somasundara Sharma in a statement said that the police had no reasons at all to lathi-charge the workers when there was no provocation of any kind from them.

Some 30 women were injured by the lathi-charge. They were treated at the K.R.S. Hospital. The condition of one woman worker was so severe that it needed hospitalisation, he said.

The workers who are on strike demanding better wages and bonus yesterday took out a procession protesting against the lathi-charge.

Superb Piano Recital

Mysore, April 1

The Mysore Music Association, the C F T R I Gymkhana Club and the Max Mueller Bhavan, Bangalore, had organised a piano recital by Yara Bernette, an internationally known pianist, on Monday at the CFTRI Hall.

It was a superb performance and unforgettable. From the opening bars of Chopin's heroic Ballades to the last strains of Mussargsky's intensely Russian rhythms, she held the audience spell-bound. Her rendering of Chopin ranged from passion and power to intense lyricism without any trace of unnecessary sentimentalism. She attacked the instrument with power and utter control, making the piano surge or thunder at her will.

It was an evening of splendid music and the organisers deserve gratitude of the connoisseurs of music.

Politics Affecting Varsity

Bangalore, April 3

Dr. Samuel Mathai, constituting the one man commission to look into the affairs of the Bangalore University, has in his report held that there was no evidence to support the allegation that communal domination existed in the University as complained by the students action committee and the group of seven MPs.

In his 61-page report he said: "This allegation does not appear to be based on facts. The staff of the University shows a good mixture of the local caste or communal groups as well as minority groups and persons from other States".

Prof. Mathai said the "real trouble" in the University appeared to be that some of the members of the Senate and Syndicate, who were partisan in their attitude, kept up a continuous pressure upon the University administration. "More potent than communalism as a factor affecting the University is politics-politics of professional politicians, teacher politicians and student politicians", he said.

He has suggested to the Chancellor to consider restructuring of the University in the light of the suggestions made by the committee of governance of the UGC.

Private Schools Defended

Mysore, April 6

Sri K. Puttaswamy, former Minister, yesterday vehemently opposed the proposal to appoint a one-man committee to go into the functioning of the private educational institutions in the State.

He was presiding over the function arranged by the residents of the Vani Vilas Mohalla and the Mathru Mandali to felicitate Smt. K. S. Nagarathnamma, Assembly Speaker.

Sri Puttaswamy said a campaign had been started that all those who were running the private educational institutions were "looting" money.

Unfortunately even the Director of Public Instruction had joined the "chorus".

But, he said the working of the private institutions was far better than the Government schools. At least about 90 per cent of the private institutions were rendering good service. Just because some institutions were not functioning well he was unable to know what kind of justice it was to treat all of them equal with an eye of suspicion, the former Minister said.

He praised Smt. Nagarathnamma and said she had all the deserving qualities to be the Speaker. Fast changes were taking place in the country. Those who had no sense of selfless service could not remain in public field for long. This was his experience, Sri Puttaswamy said.

Smt. Nagarathnamma said the Speaker's post was a challenging one. She had accepted the task drawing inspiration from the Prime Minister who had been successfully facing all the challenges.

Earlier, Smt. Soundaramma, Mandali Vice-President, welcomed the gathering. Sri H. V. Shankar Rao and K.V. Srikantiah spoke.

Sri Siddaveerappa later addressed the students and doctors and advised them to serve the public well.

TOTAL ERADICATION OF GRAFT DIFFICULT

Mysore, April 6

Chief Minieter Devaraj Urs said here today that so long as man was selfish and had both good and bad sides in him it would be difficult to eradicate corruption completely from public life.

Inaugurating the sixth orientation course for vigilance officers, organised by the National Academy of Administration in collaboration with the Central Vigilance Commission, Sri Urs said that he had no fixed ideas now as how to end corruption. For him even the delay of files or decisions meant to be corruption.

He called upon the vigilance officers to make continuous efforts to contain corruption "which was spreading into body politic of the country".

Sri L. M. Batia, Secretary, Central Vigilance Commission, welcomed the gathering. Sri K. S. Dhilon proposed a vote of thanks.

3-Lakh Survey For Broad Gauge

Mysore, April 7

He said although many industrialists wanted to set up their industries here, they were complaining of lack of proper communication facilities. There was need for widening the Mysore Bangalore road also in view of the heavy vehicular traffic.

FILM REVIEW

SARA AKASH

The "new wave" in film making is being increasingly taken up by the talented young movie makers in India. "Sara Akash" heralding the new wave in Hindi films continues the new trend in film making.

"Sara Akash" is based on Rajendra Yadav's Hindi novel of the same title. The film has won the national award in 1971 and was India's official entry at the Venice, Locarno, Cork and Chicago international film festivals.

The film scales a new high among Hindi films, setting aside the usual mass appealing techniques adopted by the majority of commercial Hindi films. Basu Chatterji, who had his initial grooming in the Film Institute of India, goes to show that he could be a top-most director in this first venture of his.

"Made on a small budget entirely .outside the studios, "Sara Akash" has the touch of reality in telling the story of a lower middle class family of Northern India. K. K. Mahajan, who shot into prominence in his very first feature film "Bhuvan Shome", wields the camara in this film, his second.

Rakesh, who has his first maiden role in a Hindi film, plays the role of Samar, a youth who is in conflict between the old and the new values. He finds it hard to adjust himself to his married life with Prabha, played by Madhu, who also gets the first break in Hindi films as the leading lady.

"Sara Akash" is now being shown at Shalimar, the new mini-theatre of the city.

Training Centres For Drivers

Mysore, April 19

It was proposed to start centres all over the State to train bus conductors and drivers of theMSRTC, Chief Minister Devaraj Urs said yesterday.

Speaking at the MSRTC Karmik Sangha anniversary celebrations, he said it was easy to obtain for anybody a driving licence at the RTOs office with an application and an "envelop". With this and lack of proper training one could see many accidents on the highways.

Expressing concern at the falling profits of the Corporation, the Chief Minister said although the number of passengers, buses and capital investment had increased the profits were going down. The profit in the previous year was only Rs. 50 lakhs. This year it was expected to be little more because of the increased fares. But in 1966-67, the profit made by the Corporation was as much as Rs. 1.2 crores. The investment now was Rs. 30 crores and there were about 3,500 buses. Comparatively, the income should also be more, he said.

Transport Minister Azeez Sait presiding over the function warned the workers that the Government would not allow the MSRTC to continue a "grazing land" for corrupt employees.

Sangha President B. Lingiah welcomed the gathering. General Secretary M. Malliah read a report. Sri Lingiah and Sri Kempachikkaiah, presented memoranda to the Ministers. Labour leaders Faiyaz Mohiyuddin and Kotagi Siddalingappa spoke.

LAND CEILING PUT AT 10-18 ACRES

Mysore, April 20

A family unit consisting of five members should not own more than 10-18 acres of very good land where two crops a year are grown and the ceiling for dry land should be fixed at 100 acres for a family, Chief Minister Deveraj Urs said at Hunsur yesterday.

The Chief Minister was accorded a civic reception by the Hunsur Municipality on his first visit after assuming office. It also honoured Public Works Minister H. M. Channabasappa, Transport Minister Azeez Sait and Minister of State for Major Irrigation H.N. Nanje Gowda.

Explaining the land reform measures proposed to be introduced in a comprehensive Bill in the nextAssembly session, Sri Urs said the ceiling would cover all mutts, temples and religious institutions.

He said the present Land Reforms Act needed many changes. It was the intention of the Government that the tiller should become the owner and the owner of land should have no other profession. Wherever lands had been resumed by the owners on the pretex of self-cultivation, the Chief Minister warned that all such lands would be taken back and given to the ryots.

Sri Urs also felt the need to simplify the "cumbersome procedures" to be followed by farmers in securing loans through co-operative societies. He suggested giving an identity book to each farmer mentioning his possession of land and loans taken.

Sri Channabasappa appealed to the people and officials to work hand in hand for better administration. He asked the officials to adjust to the changing trends and keep pace with them.

GOVT. CONSIDERING NEHRU LOKA SCHEME

Mysore, April 24

The Nehru Loka scheme was being examined de novo and it would be taken up with the Central Government for reviving its implementation, Tourism Minister Azeez Sait declared yesterday.

Inaugurating the one-day seminar on tourism organised by the local Chamber of Commerce and Industry, the Minister said that the Nehru Loka scheme was not a romantic conception of wasting publics funds for the amusement of a few. It was basically a commercial proposition that would make the city rich in culture and prosperous commercially.

The scheme included building a complex expanding the Zoo Gardens and locating a permanent exhibition at the foothills of Chamundi. The Lalitha Mahal had already been handed over to the Centre to convert it into a five-star hotel. The Nehru Loka, when it came into being, would surpass the Brindavan Gardens and other famous gardens of the world, Sri Azeez Sait said.

The Minister said Mysore City had a very high potential for tourist development with many famous centres within a radius of 10-100 miles. "We should think of an integrated plan of development for the City", he added.

MASTER PLAN FOR CITY

Mr. J.B. Mallaradhya, Chairman, State Tourism Development Corporation, in his presidential address said that the Corporation had prepared a 14-point master plan for the development of the city and the surrounding places as a tourist complex.

This included airlinking Mysore city, implementing Nehru Loka, providing luxury cars and buses, opening Corporation's regional office, arranging cultural programmes constructing dormitories, building a 50-room guest house at Chamundi Guest House, taking over Hotel Metropole and Krishnarajasagar, training tourist guides, increasing facilities at Krishnarajasagar, arranging permanent exhibition, conducting tours and recognising travel agents.

It also included putting up a ropeway to the Chamundi Hills. The Rs. 18-lakh guest house proposal was before the Government for approval, he added.

Chamber President F.K. Irani's welcome address was read by Convener R. Vasudeva Murthy. Municipal President K. N. Somasundaram urged for concerted efforts to improve the city. Convener B.N. Aradhya proposed a vote of thanks.

He paid tributes to Sri Channiah for promoting wrestling in the city and called upon organisations, the Government and the people to give all encouragement to wrestling.

Sri Azeez Sait assured to provide a permanent Akhada for the Sangha to conduct wrestling matches.

Emergent Leg. Session Urged

Mysore, April 25

Sri T. N. Narasimha Murthy, Opposition leader in the Legislative Council, yesterday called upon the State Government to convene an emergent session of the Legislature immediately and bring in a comprehensive land legislation instead of making 'hapazard and half-hearted attempts' of introducing amendments to existing rules.

Addressing a press conference, Sri Narasimha Murthy strongly opposed the charge that the Opposition was not co-operating with the new Government and had gone back on its assurance in regard to the amendment in the Council.

He said this was totally baseless. It was on the other hand the party in power which was not respecting the Opposition.

The Opposition leader vehemently opposed promulgating an ordinance on the land reforms issue in view of the deadlock in the Council and said this would be undemocratic and unconstitutional. He also opposed the reported move to abolish the Legislative Council.

He called upon the Government to come out with its clear stand on the waters and border issues.

Sri Narasimha Murthy wanted more industries to be set up in Mysore City to solve the unemployment problem. Otherwise the youth might revolt, he warned.

Convert JM Palace Into Museum

Mysore, April 26

A proposal to acquire and convert the Jagan Mohan Palace into a museum was made to the Government by Dr. M. Seshadri, Director of Archaeology, Government of Mysore, here on Sunday.

Participating in the seminar on tourism organised by the Mysore Chamber of Commerce, Dr. Seshadri said Mysore City had great potentialities for a musuem. The Jagan Mohan Palace contained some world famous paintings. The Palace could be developed into a good museum-cum-art gallery to exhibit the traditional and mordern art.

The Director said that his Department had made this suggestion to the State Government.

Dr.Seshadri suggested the Centrecollecting all duplicate art pieces available in the country and selling them to check smuggling of art pieces and selling of fakes.

He disclosed that the Department was negotiating with the Government on bringing out tourist literature on ancient monuments. It was necessary that all tourist literature should be scrutinised by the Department to give a correct picture of the places.

Sri M. K. Ramachandra, ex-President of the MysoreChamber of Commerce and Industry, Bangalore, suggested having an express way between Mysore-Bangalore, if necessary by levying a toll

Sanskrit Scholar Felicitated

Mysore, April 26

Tributes were paid to the scholarship of Pandit K.S. Varadacharya, winner of the Devaraj Bahadur prize for 1970-71 of the State Government, at a function yesterday.

The Vidwan was felicitated by the students and teachers of the Sanskrit Department and the Oriental Research Institute.

Sri Krishne Gowda, Bursur, Mysore University, who presided said Pandit Varadacharya had brought credit to the University by securing the award.

Welcoming the gathering, Dr.G. Marulasiddiah, Institute Director, said that "Nyayamanjari", Jayanthi Bhatta's book on Tarka Shastra, was itself a masterly book and to edit and write commentary on it was a difficult task.

Praising the author, he said that more and more Pandits should follow the example of Vidwan Varadacharya.

Sri Varadacharya said the honour should go to his gurus, including the former Acharya of the Parakala Mutt, who had taught him for eight years the methodology of Sanskrit.

Editing a great scholarly book as "Nyayamanjari" was a difficult job. Any wrong interpretation would convey a different meaning than what the original author intends to mean, he said.

Sri Varadacharya said he would take up work on the second volume soon.

Sri K. S. Ramaswamy read the messages and Sri Shivaganesha Murthy introduced Pandit Varadacharya. Sri G. Sitaramiah proposed a vote of thanks.

SUGAR DISTRIBUTION POLICY ASSAILED

Mysore, April 29

Entrusting distribution of essential commodities to a private agency by the Deputy Commissioner was strongly criticised by two Opposition members in the City Municipal Council yesterday.

Sri L. Chikkarangappa, who raised the issue, said that it was the policy of the Government to distribute sugar, wheat and other commodities through the District-Central Co-operative Wholesale Stores. An allotment of 3,200 quintals of sugar and also wheat was being made to the Wholesale Stores for distribution to the fair price depots and co-operative societies for selling them to the public.

But out of this allotment, the distribution of more than 1,000 quintals of sugar and 500 bags of wheat had been entrusted to a private party recently. As there was a difference of nearly one rupee in the market rate and the rate of the fair price depots, the private agency had opportunity to make as much as Rs. 75,000 to Rs. 80,000 a month, he said.

Sri Chikkarangappa said although this had been pointed out to the concerned officials the licence had not been withdrawn. It looked as though the officials had an hand in this affair, he alleged.

He demanded that the Government should appoint a high-level committee to probe into this and take action on the concerned officials.

Supporting Sri Chikkarangappa, Sri Srikanta Sharma said that the licence to the private agency had been issued on April 4 by the Deputy Commissioner.

He alleged that the private agency was running fair price shops in the names of its family members. He wanted the licence issued to the agency should be withdrawn forthwith and disciplinary action taken on the concerned officials.

Sri J. M. Coutinho informed the House that Lt. Comdr. Joseph Alfred Noronha, who had been honoured with Mahavir Chakra for his gallantry in the recent India-Pakistan war, was born and educated in Mysore City. His father was a retired postmaster here.

He was sorry that while all other organisations elsewhere were honouring him, Mysore City was lethargic to honour a great hero who had brought honour to the city, he said.

President K. N. Somasundaram assured to arrange a function to honour him.

Poor Response For Diesel Trains

Mysore, May 1

The number of passengers travelling in the newly introduced diesel express and the rail car trains between Mysore and Bangalore is far from encouraging.

The ratio of occupation in the diesel express is 40 to 50per cent in third class and only 25 to 30 per cent in first class. In the rail car the occupation is only 20 to 25 per cent particularly from Bangalore to Mysore although this train is provided to leave Bangalore at 6 p.m. to facilitate passengers to return to Mysore the same day.

The diesel express train has 376 third class seats and 32 first class seats and provided with catering arrangements. Thirty-two third class seats have been reserved for ladies.

This new train called "Mysore Express" is a vestibuled one, introduced for the first time in meter gauge. It provides a panoramic view of the whole train. This train has been manufactured at the Railway Workshop in the city at a cost of Rs. 17 lakhs.

The same rake runs as Mysore Mail. Even in this train passengers do not make use fully of the reserved accommodation and they prefer to travel in the crowded unreserved compartments.

The rail consisting of 15 first class and 131 third class seats runs from Mysore to Guntakal on Sundays, Wednesdays and Fridays, and returns from Guntakal on Mondays, Thursdays and Saturdays. This train is very popular between Bangalore and Guntakal.

A party of pressmen yesterday travelled from Mysore to Bangalore by the morning rail car and returned by the afternoon diesel express.

Sri Nanjundiah, Divisional Commercial Superintendent, who accompanied the pressmen pleaded for full patronage from the public to these trains so that they could be made permanent in the Mysore Division.

Health Department To Be Revamped

Mysore, May 2

Health MinisterH.Siddaveerappa said here yesterday that the Government was thinking of reorganising the Health Department to make it work effectively.

Addressing the Congress party workers, he said he had also proposed to reconstitute all the boards of visitors of Government Hospitals in the State and give them greater powers so that they could function as watchdogs of the public hospitals.

Sri Siddaveerappa said the rules of admissions to the hospitals would be changed so that the hospitals instead of becoming resting places for a few could help the deserving and the poor to get admissions and medical help easily.

Although these hospitals were mainly meant for the poor and the common man, this purpose was not being served well. The facilities were available only to those who had the ability to pay. It would not be wrong to collect more money from those who had this ability to pay so that the poor could get free and good treatment, he said.

He said he was also considering posting of specialists to hospitals in taluk headquarters to reduce the rush to the city hospitals. Here he pointed out that the management and running of city hospitals should be the responsibility of theMunicipality. Maintenance of health was the task of the local bodies and Government should divert attention to rural areas.

Referring to the inefficiency in the department, Sri Siddaveerappa said that for reasons unknown the department had been neglected in the past few years. It was like the cart without the lynch-pin.

Earlier, Sri Jayadevaraje Urs, City Congress President, welcoming the Minister urged for more amenities in the two hospitals.

Sri K. P. Shantha Murthy wanted more hospitals in rural areas.

Sri B. N. Kenge Gowda urged for Government sanction for the ED Hospital and for the expansion of the ophthalmolic department.

Trust Board Chairman H. Kempe Gowda said the Board was ready to give Rs. five lakhs for the new ED Hospital.

The starting of a lepers centre was urged by Smt. Devaki B. Singh.

Transfer of class IV employees was opposed by Sri Vedantha Hemmige.

Sri K. Ramanna pleaded that medical representatives should not be allowed into the hospitals.

Sri K. B. Ramaswamy, DCC President, proposed a vote of thanks.

He was inaugurating a two-week orientation course in comprehensive regional development planning for plan liaison officers of the various departments of the State Government. The course is jointly sponsored by the Administrative Training Institute and the Institute of Development Studies.

Emphasising the need to exchange knowledge and know-how for modern planning and development, the Vice-Chancellor said that planning and development would be a thorough failure if the walls between the community and the university were not removed.

Deputy Commissioner D. Balagopalan, who presided, said that the concept of planning was yet to be fully realised by the officers. He suggested taking two or three districts where conditions and problems were identical as a unit for planning.

Division Of Belgaum

Sri Pant is reported to have discussed the same proposal with Maharashtra leaders.

Meanwhile, Sri Kollur Mallappa, MP and Congress Working Committee member, has suggested a new formula for the solution of the boundary dispute on the basis of three principles suggested by Maharashtra itself.

Sri Mallappa more or less confirmed that the Central Government was again thinking in terms of bifurcating Belgaum and warned that this would be a solution which Mysore would not accept at any cost.

Industrialists' Woes Explained

Mysore, May 4

The difficulties faced by industrialists and entrepreneurs in setting up new industries in Mysore City were explained to the Techno-Economic Survey Committee, which is in the city now.

At a get together arranged by the District Small Scale Industries Association, the leader of the visiting team, Sri Seetharam said the committee had been appointed by the State Government. Mysore District had been declared as an industrially backward district and it was proposed to choose one or two units and subsidise them.

The team visited various industrial units yesterday. They will visit other industrial establishments in the city and the district today and tomorrow.

Sri F. K. Irani, President, Chamber of Commerce and Industry, said that the entrepreneurs had to pay as much as Rs.15,000 per acre of land. This was too exorbitant and the industrialist could not afford to invest this huge sum on land alone.

If the Government really wanted to develop the backward areas first it must provide land to industrialists at subsidised rates, he said.

Kirloskers and Birlas who intended to set up their industrial units in Mysore City had second thoughts because of the exorbitant rates, Sri Irani said.

Sri A. Ramanna pointed out that there was no use simply sending teams and setting up committees. What was required was concrete action to develop Mysore.

Sri B. N. Aradhya, Association Secretary, wanted exemption of excise duty on products manufactured in Mysore District.

The setting up of agro-industries, cotton ginning industry, oil industry and a tobacco industry in Hunsur was suggested by Sri Anke Gowda, Director of Small Farmers Development Agency.

He urged for converting the Mysore-Bangalore rail line into broad gauge to save transhipment expenditure.

The location of a fruit canning industry in Mysore was suggested by Sri Reddy, District Horticultural Officer. A suggestion to put up a paper pulp manufacturing unit in Hunsur was also made.

The need to build up consumer resistence by Mysoreans was emphasised by Sri Mukherji.

Sri R. Vasudeva Murthy, Chamber Secretary, pointed out the strange policy of the Government in levying excise duty on silkworm pupae.

Earlier, Sri B. N. Aradya, Association, Secretary, welcomed the members.

REORGANISATION OF SALES TAX DEPT.

Mysore, May 5

It has been proposed to reorganise the Commercial Tax Department in order to reduce the backlog of cases in a year or two, Sri D. J. Balraj, Commissioner for Commercial Taxes, said yesterday.

Addressing the members of the Chamber of Commerce and Industry, he said that the Government was anxious that all reforms were brought about in the Department to increase efficiency and reduce the number of pending cases to the minimum.

He said that as in the case of income-tax assessment, in sales tax assessment also there was friction between the Department and the assessees. This should be minimised.

IMPROVED WATER SUPPLY SYSTEM

Work To Begin Tomorrow

Mysore, May 9

A new landmark will be made in the development of Mysore City with the inauguration of the third stage water supply scheme tomorrow.

Due to the alround development of the city over the last few years, the water supply to the city has become insufficient and there has been interrupted supplies. There has been increasing demand also by industries newly coming around the city. This has necessitated further improvements in the water supply system.

The history of water supply to Mysore can be traced to the days of Dewan Purnayya who arranged excavation of a contour channel from a point very near the present Krishnarajasagar to the city to bring the sacred Cauvery to every house in Mysore. Unfortunately, the project was not completed.

The ancient system of supplying water through 'Karanjees' from the Karanjee Kere was introduced sometime later. During the eighties water was started to be drawn from the Kukkarahally tank through a system of iron mains laid out to all parts of Mysore.

The city got its first modern water supply in 1896 with a new source at Belagula. The scheme was taken up during the reign of Maharaja Chamaraj Wadiyar by Dewan K. Seshadri Iyer. As the new system was completed during the time of Smt. Kempananjammanni of Vanivilas Sannidhana, it was named 'Vanivilas Water Works'.

VANIVILAS WATER WORKS

Water was drawn from the Devaraya channel of Devaraya Anecut across river Cauvery and pumped by means of steam turbine pumps through 14 inches main five and a half miles long to the city. The supply was 0.5 million gallons a day to the then population of 68,000 at 7 gallons per capita. The Belagula pumping station was electrified in 1910.

Consequent on the rise in city's population, the system underwent improvements from time to time. The per capita supply varied between 18 and 22 gallons in 1941 when the population was 1.50 lakhs.

The first stage of improvements undertaken by the Municipality under the master plan was in 1954 to supply seven million gallons of water from a new source at Hongalli on the bank of Cauvery in Krishnarajasagar. This scheme costing Rs. 48.54 lakhs was commissioned in 1959. It increased the total pumpage from Hongalli and Belagula to 10-12 million gallons a day.

Exhibition At Doddakere From'73

Mysore, May 11

The State Government had agreed in principle to construct a permanent exhibition building for holding the annual Dasara exhibition at Doddakere maidan, Industries Minister S. M. Krishna said yesterday.

Speaking at the District Small Scale Industries Association, he said that it might not be possible to shift the venue this year itself. The construction of the building had to be taken up on a phased programme so as to complete it in 3-4 years. By next year perhaps the exhibition could be organised at the new place.

The Minister expressed confidence that there would be no controversy in regard to the setting up of theHospet steel plant in view of the Centre's rethinking.

The Prime Minister as well as the Minister for Steel were anxious of development of Mysore State. Therefore, he was confident they would take a decision which would be in the interests of the State.

Referring to the plea for broad gauge between Mysore-Bangalore, Sri Krishna said that this had been taken up with the Railway Minister. He had put one condition that the 90-mile belt should be industrially developed to justify the line.

The Government was also having the same policy of industrialisation in the area. It was sending all industrialists to set up their new ventures in these backward areas. He called upon young and entreprising industrialists to fulfil the objective of the Government.

Earlier Association President M. B. Basaviah welcomed the gathering. Secretary B. N. Aradhya pleaded for greater incentives to small scale industries. Sri R. Vasudeva Murthy proposed a vote of thanks.

NEHRU LOKA 1st STAGE SOON

Mysore, May 13

It had been decided to implement the first stage of the Nehru Loka scheme in Mysore City, Tourism Minister Azeez Sait said here yesterday.

Replying to a civic address presented by the City Municipal Council, Sri Azeez Sait dispelled the fear in some quarters that crores of rupees would be wasted on the Nehru Loka scheme.

He said the main concept of the scheme was to see that the importance of Mysore City was retained by constructing permanent exhibition buildings for holding the annual Dasara exhibition, a modern stadium, a wrestling Akhada and a swimming pool at the Doddakere Maidan. It had been also proposed to expand the Zoo.

It had bren decided to hand over the Lalitha Mahal to the India Tourism Development Corporation for a posh hotel. There would be small centres for shopping to facilitate foreigners buy Mysore products, he said.

Referring to the demand for Mysore - Bangalore broad gauge line, Sri Sait pointed out that the Railway Minister had already ordered a survey at a cost of Rs. 3.5 crores. After this project was completed which was very essential for the development of the city, the Municipality could urge for the Chamarajanagar-Sathyamangalam rail line, he said.

He assured to get some industries to Mysore so that the unemployment problem in the city could be solved.

Referring to the plea for locating mofussil bus stand near the Railway Station, he said this would not be possible as the Jeevanarayanakatte Grounds was nearer to hospitals. It had been also decided to hand over the Exhibition Buildings to the Medical College. Therefore, two other places-the Government Teachers' Training College premises and the Doddakere Maidan-were under consideration. A decision in this regard would be taken soon.

He welcomed the suggestion to introduce a direct bus service between Mysore and Tirupathi. He said he would take up the matter with the concerned authorities.

Sri Azeez Sait said the city bus service would be extended to all four corners of the city.

He indicated that an increased share would be given to municipalities from the motor vehicles tax collected by the Government.

Earlier, Civic Chief K. N. Somasundaram presented the civic address to the Minister.

Sri B. Shivanna, Minister of State for Finance, was also present. Vice-President D. Appajappa proposed a vote of thanks.

CBI IN PURSUIT OF ART SMUGGLERS

Ever since Nasli Heeramaneck, a U. S. citizen of Indian origin, introduced Indian antiques to the United States of America in 1927, the alluent Western markets have gone crazy over Indian art pieces, especially rare sculpture. They are prepared to pay fabulous prices for objects of art from this country.

This trend has given rise to a number of problems. Unscrupulous elements are busy making money through clandestine trade in antiques, depriving India of valuable art pieces. These are smuggled to the outside world in contravention of the laws of the land and no means are considered too bad to facilitate these nefarious activities.

The Central Bureau of Investigation was first seized of the problem in 1965 when it investigated in depth this form of smuggling to identify the culprits and their modus operandi in connection with 'exports' of a Shiva Paravati figure to America. This 5½' high sculpture was a rare piece of art and was put on display by the purchaser, Messrs Everett D.Rassiga, Inc. at the firm's art gallery in New York, with a price tag of 50,000 dollars.

The CBI swung into action and found that the sculpture was sold by the Narangs of New Delhi to Sri Rassiga for 13,000 dollars when the latter was on a visit to New Delhi.

CBI's investigation also revealed that the accused had entered into a conspiracy with two customs clearance agents of Bombay to export this tenth century Central India Sculpture. They were alleged to have falsely declared the encased image as brassware and forged the customs papers. They also failed to account for the foreign exchange earned by the sale of this sculpture. The accused are now facing trial.

This was the first case of its kind investigated by the CBI. Soon after, the Bureau started maintaining a record of the thefts of antiques and of the suspected persons as of those actually convicted in such cases.

The CBI action led to the discovery last year of the idol of Lord Vishnu, which was stolen from Chamba in Himachal Pradesh. At the instance of the CBI a case was registered with the Delhi Police. As a result of intensified investigations, the idol was recovered at Bombay. Despite the fact. that the idol had been taken to Bombay, the culprits became nervous. They feared that the obvious intent of illegal export to another country could hardly be suppressed.

Home For The Aged

Mysore, May 17

The members of the Mysore Round Table visited the "Home for the Aged" here recently and presented a bag of rice in connection with the tenth anniversary celebrations of the Round Table India.

The 'Home for the Aged' is run by the Little Sisters of the Poor who came to Mysore last year with the sole intention of caring for the old people who are above 60 and who are poor and need protection.

An abandoned tile factory on about five acres on Mahadevapura Road in Gandhinagar has been donated to the institution by the Bishop of Mysore. At present the Sisters are caring for 10 ladies and 11 men. Plans are being drawn up to provide accommodation for 200 old people—95 men, 95 women and 5 elderly couples. The Sisters have no funds or income but rely entirely on the help of kind and philanthropic persons.

The Mysore Round Table supports this institution as one of its community welfare projects.

CBI IN PURSUIT OF ART SMUGGLERS

(Continued from yesterday)

Fast on the heels of the recovery came the theft of Lord Rama from the temple of Dholpur Chawani (Bharathpur)in Rajasthan. Twenty-four similar other idols adorned the back of the throne which seated Lord Rama. With no photograph of the idol or other clues to guide it the CBI went to assist the Rajasthan Police. A vigil was kept on some antique dealers. The interrogation of one of them gave the first clue of the persons involved in the theft. One of the thieves had approached a dealer for the disposal of the figure. On the basis of information passed on by the CBI to Rajasthan Police, the idol was ultimately recovered from a godown in South Delhi.

The CBI was once again asked to help in the recovery of a priceless image of an 'Apsara' stolen from the temples of Khajuraho in October last. A special team of CBI offiicers was put on the job and they obtained valuable clues, leading to the recovery of the image which had not been exported till then. The CBI officers were able to recover the piece intact from a place near Khajuraho where it lay immersed in a river bed under 3' deep water.

The Crime Records Section of the CBI is trying to computerise the information received from various States about the persons connected with thefts of antiques and also to have more accurate information about stolen idols or antiques. In course of time this information bank will be of considerable assistance to all State agencies in the investigation of cases of theft of antiques which have inter-State ramifications. The CBI also flashes information about theft of such antiques to various countries through the agency of Interpol.

Function Sans Minister

Mysore, May 25

The Government Textbooks Department had arranged a function to release a book in Kannada on children rhymes here this morning. Dr. K. V. Puttappa, reputed poet, was to release the book and Sri A. R. Badrinarayan, Education Minister, was to preside.

Dr. Puttappa, who is known for his punctuality, arrived exactly at 8 a.m., the scheduled time. But even after nearly an hour's waiting there was no sign of the Minister. When the Pressmen, knowing how the Ministers are keeping their schedule these days, were contemplating to leave the place, the officials commenced the function.

The function ended at about 9-45 a m. Even untill then the Minister had not arrived nor sent a message expressing his inability to come.

Dr. Puttappa did both the jobs of releasing the book and presiding over the function. He referred to the absence of the Minister and remarked it was a feature of our political scene.

Dr. Puttapa said children's life itself was like a poem. The book intended to arouse their poetic bent of mind. The nursary poems brought happiness not only to children but even to elders and aroused the qualities of a child dormant in them. To get out from disappointment, frustration and weakness, even to elders this literature was essential.

POPULARISE HYBRID VARIETIES

Mysore, May 29

Smt. K. S. Nagarathnamma, Speaker of the Legislative Assembly, today called upon agricultural trainees to popularise hybrid varieties of crops, more particularly hybrid varieties of pulses, among the farmers.

She was inaugurating the district level training programme in high-yielding varieties for 1972-73 khariff season.

Warning against excessive use of pesticides to save the hybrid crops, Smt. Nagarathnamma urged for educating the farmers on the limited use of pesticides.

She also distrubuted cash prizes to the best farmers.

Sri K. Puttaswamy, MLA, who presided, said that although the prices of foodgrains were high in the market, agriculture for nearly 99 per cent of the farmers was not profitable because of increasing expenditure on farming. Agriculture was profitable only to those who had big lands.

Such big cultivators could take the risk of growing hybrid varieties. But the small farmers were not in a position to bear the burden of loss in hybrid crops. Therefore, it was necessary to prevent hybrid crops from pests and diseases and see that small ryots too take up cultivation of hybrid varieties, he said.

Sri P. U. Belliyappa, Assistant Director for Agriculture, welcomed the gathering. Sri R. Peeranna President, Farmers' Forum, proposed a vote of thanks.

CALL TO ERADICATE TB IN STATE

Mysore, May 29

Health Minister H. Siddaveerappa called upon the doctors to explore the possibilities of eradicating tuberculosis in the State from its root-stage itself.

He was inaugurating a two-day third State TB and Chest Diseases Workers' Conference under the auspices of the State and District Tuberculosis Associations on Saturday.

The Minister said tuberculosis was taking a heavy toll in the State. In the tuberculosis hospitals in the State very little improvements had been made. MINISTER OUTLINES LAND REFORMS

Mysore, May 30

Revenue Minister Hutchmasti Gowda told the landlords here yesterday that they must be aware that their intermediary position would not continue after a set date.

At a function arranged by the Land Owners' Association to felicitate Smt. K. S. Nagarathnamma, Assembly Speaker, the Minister said it was necessary to indicate to the landlords the way in which the Government proposed to bring in land reforms.

Giving a broad outline of the proposed changes, he said that except widows, minors and military personnel, who own lands, others might not get exemption from the land legislation. This exemption was there in the present Act and the same might be continued in the forthcoming comprehensive land legislation also.

As regards paying compensation, although it was put at 15 times the rental value, this might be increased to 20 times. In the present Act compensation upto Rs. 2,000 could be paid in cash and the rest in bonds. It was also proposed to extend this cash limit. It was good to pay the compensation to the small land-owners, who will be affected by the land legislations, in a lump so that they could think of taking up alternative sources of income, he said.

The Minister made it clear that it was not the intention of the Government to affect the livelihood of the present landlords. With compensation paid in one lump they could take up other avocations, he said.

As regards the charitable and religious institutions, Sri Hutchmasti Gowda said the Government would think of what alternative help could be given to them when their lands were brought under the new act.

Referring to the proposed ceiling limit of 10 acres, he said there were not many lands which were above ten acres having irrigated facility raising two crops a year which would be affected by the ceiling limit.

The Minister reiterated that a comprehensive Bill would be brought forward in the Assembly to meet from June 19.

Smt. K.S.Nagarathnamma urged the Minister to bear the interests of both the landlords and the farmers while bringing in the new legislation. The position had changed so much today "the dog's tail itself is directing the dog".

The law makers should see that both "the tank bund and the tank water" were saved in the new reforms. Socialism had become a fashionable term and even the Prime Minister herself had indicated this, she said.

Messrs Agaram Rangiah, Palahalli Sitaramiah, R. Srinivasachar, A. Rama Rao, Chowdiah, N. Anantharangachar and Ganapiah explained the problems of the landowners Sri B.S. Bhaskara Rao, Association Secretary, presented a memorandum to the Revenue Minister.

Earlier, Association Vice-President B. N. Dattatri welcomed the gathering. Sri Mahaveer Prasad proposed a vote of thanks.

RING-ROAD AROUND CITY

Mysore, May 31

The construction of ring-roads in Mysore, Bangalore, Hubli-Dharwar and other big cities in the State is being considered, Public Works Minister H. M. Channabasappa said yesterday.

Replying to the civic address presented to him and to Smt. K. S. Nagarathnamma, Assembly Speaker, by the City Municipal Council, Sri Channabasappa said the intention was to connect all PWD roads to the ring-roads and divert direct traffic through them avoiding traffic inflow into the cities.

He said if the Mysore City Municipality was agreeable to this proposal he would sanction it immediately.

The Minister favoured the setting up of a big starch factory near the city in view of increased production of maize in the district.

In a way it was a good sign that the city had not developed creating civic problems as in Bangalore, Calcutta and other big cities. He favoured setting up of industries 8–10 miles away from the city.

Sri Channabasappa said that a change in the present administrative machinery was inevitable to make it more efficient and less costly.

Whether an employee worked efficiently or not he would get his pay and promotions. An employee worked only for 199 days in a year, while enjoying holiday for rest of the 165 days. A major portion of a State's expenditure went for payments to its employees, leaving very little for development activities, he said.

Appointments were made without considering the amount of work and the need for fresh recruitments. Where there was need for one person 40 would be appointed. If these were to continue the country would become 'bankrupt', Sri Channabasappa warned.

He pointed out that as much as Rs. 6 crores was being spent on the 'Krishi Bhavan' in Delhi, although agriculture was not the Centre's concern and it framed only broad policies. There was an army of officials in the Krishi Bhavan. Thus the Government had become a free choultry ('Dharma Chatra'), he said.

The Minister called upon people, particularly people in the State, whose public opinion appeared to have died, to think of such serious issues and create public opinion in favour of good changes

Smt. Nagarathnamma assured help in getting the needs of the city, like broad gauge and industrialisation, fulfilled.

Municipal President K. N. Somasundaram presented adresses to Sri Channabasappa and Smt. Nagarathnamma. Vice-President D. Appajappa proposed a vote of thanks.

Mysore, June 1

At the Municipal Council yesterday, Sri T. V. Srinivasa Rao complained that hotels, autorickshaws and tongawallas were exploiting the tourists.

He said local hoteliers had been charging high prices for adulterated food.

The autorickshaw drivers and tongawallas were collecting exhorbitant rates from the passangers and the Regional Transport Office and the police were shutting their eyes to the exploitation, he said.

Sri Vedantha Hemmige asked the President to start an agitation to get the demand for an AIR station in the city fulfilled. Though Mysore city was urging for a unit, it was surprising that this had been ignored and new stations were proposed to be set up at Mangalore and Brahmavaran, he added.

Sri Belliyappa complained that even now only a few people were given sugar permits and there was also delay in issuing permits to others. There was increasing shortage of small coins in the city, he said.

Sri Doddathammiah stressed the need for constructing more public latrines for tourists and public fountains.

Sri Chowdiah criticised the police for their inefficiency in checking lorry nuisance and stopping of night beats. He wanted action on the Gujari shops and the private bus stand at the Gandhi Square. He complained that Townhall and its surroundings were not being well kept.

Sri Cuttinho said the city bus shelters were not well maintained. He called for indentity cards for the Municipal asessment officers.

Sri Ramakrishna complained that some co-operatives were clandestinely selling sugar in black-market. He alleged corruption in the police department.

Sri M. K. Lingiah, said that important circles in the city were being spoilt by indiscriminate pasting of cinema posters.

Dr. Kamala Raman, said that Ashokapuram Mohalla Municipal Office was not functioning properly.

Sri Srikanta Sharma accused Chief Minister Devaraj Urs of acquiescing Mysore's rights and claims in respect of Mysore-Maharastra border being arbittered by Prime-Minister Indira Gandhi. He said the Chief Minister should exercise his rights and if this was not possible for him let him resign.

Mysore As A Tourist Complex

Mysore, June 5

The Centre and the State Governments were both very anxious to develop Mysore City and its surrounding areas as a tourist complex Governor Mohanlal Sukhadia said yesterday.

The Governor was accorded a civic reception by the City Municipal Council.

In and around Mysore he said there was great potential for tourism. Besides the University and the CFTRI, there were many tourist places like Belur-Halebid, Chamundi Hills, Brindavan Gardens and Bandipur. Mysore, therefore, could well become the centre of a tourist complex, which would be second to none in the country. He expressed the confidence that some significant activity would take place very soon in developing this complex.

One of the important attractions of the city was the Palace. With the abolition of the princely privileges, he expressed the hope that it would be possible to retain the Palace in its prestine glory. In Rajasthan some of the palaces had been preserved by forming trusts. Some suitable solution would be found here also, he hoped.

Referring to the plea for Bangalore-Mysore broad gauge, the Governor said that he had already requested the Railway Minister to consider this proposal. As to the need for air linking the city, he said he did not know when it would be possible to link Mysore by air with other cities. An air link with some important places like Bangalore would certainly help tourist traffic he said and assured to do his best in this regard.

Calling upon the Municipality to be vigilant in maintaining the beauty of the city, he suggested establishment of small and medium industries instead of major industries here. Civic bodies should always plan for 20 years ahead of their time to provide reasonable amenities to the people, Sri Sukhadia suggested.

Municipal President K. N. Somasundaram in his address pleaded for location of industries, air-link to city and broad gauge between Mysore-Bangalore.

Vice-President Appajappa proposed a vote of thanks.

N.V. Gundappa Dead

Mysore, June 5

We deeply regret to record the tragic death of Sri N. V. Gundappa, Staff Correspondent, "Indian Express" yesterday night.

Sri Gundappa, who was 56, was returning to his hotel from the Cosmopolitan Club on the scooter of Sri Vedantha Hemmige. The scooter is stated to have skidded causing head injuries to Sri Gundappa, who also lost consciousness immediately. He was immediately rushed to the K. R. Hospital where he died at about 11-40 p.m. without regaining consciousness.

A powerful personality among the local journalists, Sri Gundappa was known for his frankness and outspokenness. A bachelor, he was residing at the Modern Hindu Hotel since about25 years. He has also served in 'Sadhvi' for about two years.

Sri Gundappa was associated with 'Samachar' for over 10 years and helped in the growth of the Daily.

Sri R. S. Narayan, President, Journalists' Association, in a condolence message said the journalists of Mysore had lost a loving brother and a distinguished citizen in the sudden demise of Sri Gundappa.

He was truly a friend, philosopher and guide to a very large circle of people. His long and loyal service extended over 35 years, Dr. Narayan said.

Sri A. Ramanna, Janatha Paksha leader, has also condoled the death of Sri Gundappa. A large number of his friends and colleagues paid last respects to Sri Gundappa.

Need For Up To Date Land Records

Mysore, June 6

Up to date land records were necessary to implement the land reform programmes efficiently and expeditiously, Governor Mohanlal Sukhadia said yesterday.

Inaugurating the three-day sixth all India cadastral survey conference, he said : "Today we are attempting to change the land systems prevalent in the country, so that they may reflect the socialistic pattern of society which we have adopted".

"We are now moving towards uniformity in many aspects of land legislation. Sooner or later, there is bound to be a common all India pattern. I am sure that no State Government would ever come in the way of an all India pattern", he said.

Delivering the chairman's address, Dr. Harinarain, Surveyor-General of India, said that in many States the land records were not up to date and unless these gaps were filled immediately the implementation of agrarian reforms would be delayed.

Earlier, Divisional Commissioner Srinivasan welcomed the gathering.

INDIA & SATELLITE COMMUNICATIONS

The development of a global telecomunication network has contributed more than anything else to bring people and nations nearer. Its application in the fields of scientific knowledge, education and commercial operation holds prospects of fantastic magnitude.

The stress today is on achieving a world telecommunication network by joining national systems and intercontinental links. In this context, the commissioning of India's first Earth Station at Arvi last year has put India on the satellite communication map of the world.

The Vikram Earth Station has brought a threefold increase in overseas telephone calls from India. The number of calls put through the satellite station in a month are, at present, 14830 as against 5071, a year ago. The number of out-going telex calls has also risen by nearly 50 per cent, from 9980 to 14850 a month.

Nearly 85 per cent of the international telecommunication traffic from India flows on the satellite system and a telephone call can be had almost on demand to over 90 per cent of the world's telephone population.

A satellite is now being used for radio and television broadcasts, two-way telephone service, photo and facsimile transmission and high-speed transfer of data from one computor to another.

India's first Earth Station has the capability to communicate with eight Earth Stations, with a provision to double this number. It has 600 telephone channels and can operate a television channel with any of the eight stations.

When the country's second Earth Station at Doewala near Dehra Dun will be ready some time in 1975, more expeditious, reliable and high quality telecommunication services will be possible with more countries. It will have the capacity of providing more than 250 channels and will meet the country's overseas traffic needs which are expected to go up more than 10 to 15 times compared to the present traffic load.

The new Earth Station complex will comprise the main Station near Dehra Dun and terminal at New Delhi, housing an international telephone exchange.

MYSORE MPs ACTIVE, TULSIDAS

Mysore, June 7

The Mysore MPs had been vigilant and active not only inside Parliament but also outside in supporting the interests of the State, Sri Tulsidas Dasappa, MP, claimed here today.

Speaking to newsmen at the District Congress Office, he said the MPs were distinctively active not only on general issues like border and river, but also in connection with individual cases.

One instance of an individual case in which the MPs made effective effort was in securing permission for shooting the Kannada film 'Nagara Haavu' in Chitradurga fort. They took up the issue with the concerned Minister and convinced him on its filming in the fort area.

Similiarly, the Mysore MPs had pointed out to the Centre that the Mahajan Commission recommendations should be considered in toto and not on piece-meal basis. They had joined the Kasargod delegation in presenting a memorandum to the Prime Minister on merging Kasargod with Mysore.

Sri Tulsidas denied that there was any proposal like the division of Belgaum to resolve the boundary issue.

Asked about his stand on changing the name of the State, he said this was not an important issue now.

Probe Into KR Hospital Urged

Mysore, June 8

Sri M. Sathyanarayana Rao, MLC, has urged the Government to institute an immediate inquiry into the functioning of the K.R. Hospital.

Sri Rao, in a letter presented to the Health Minister H. Siddaveerappa here yesterday, has pointed out cases of indifference and negligence on the part of the hospital medical staff.

They include the cases of two senior journalists who were ill-treated and shown cursory treatment by the staff when they were admitted to the hospital following scooter accidents.

The attitude of the doctor in the hospital when he took Sri N. V. Gundappa, Staff Reporter, Indian Express, on Sunday night was completely devoid of human considertion, Sri Rao said.

When he telephoned for the ambulance it was not available and there was not even an ordinary drug like sodium bicarbonate injection in stock in the hospital. He was even refused permission to use the telephone to call the senior doctor and the ambulance driver showed utter reluctance to bring the doctor to ths hospital, Sri Rao has pointed out.

He has also narrated ill-treatment to Dr. R.S. Narayan, Staff Correspondent of the Hindu, and also to an agriculturist, Sri Javare Gowda in the casualty ward.

Sri Rao said that things had not improved a "wee bit" in the K.R. Hospital. "It would be a miracle if you could make our hospital staff behave properly towards the people who come to them in distress and give them a feeling of comfort and assurance", he told the Minister in the letter.

ELECTRIC TRACTION

Electric traction means faster and cleaner travel. For long distance traffic, electric traction is the most economical form of traction, provided the density of traffic justifies the initial investment. A recent study has revealed that the cost of hauling every thousand gross tonne kilometres by steam works out to Rs. 7.99 to Rs. 4.78 when hauled by diesel and only to Rs. 3.71 by electric traction.

Railways have so far electrified 3,928 route kilometres or 10,200 track kilometres. Electrification of another 1,700 route kilometres has been approved. The sections on which work is in progress are Tundla to Delhi, Virar to Sabarmati, Panshura to Haldia, Kirandul to Waltair and Madras to Vijayawada.

It is the policy of the Railway Ministry to electrify all major trunk routes interlinking the metropolitan cities of Calcutta-Delhi, Bombay and Madras, because of the heavy traffic density on these routes.

Initially, the Indian Railways were largely dependent on foreign countries for equipment and technical know-how required for electrification. Indian Railway engineers are now in a position to engineer further schemes of electrification on their own. Design and manufacture of overhead equipment has been completely indigenised except for the import of basic raw materials like electrolytic copper which accounts for about 10% of the total cost of fixed installations. Remote control equipment, essential for operation and control of various machines in substations, transformers, circuit breakers and control panels, formerly imported, are now produced in the country. Considerable advances have also been made in indigenous manufacture of equipment required for colour light signalling and telecommunications.

Railways now indigenously produce electric locomotives for passenger and goods haulage. A mixed traffic loco is also being manufactured in India. The dual current locomotive capable of working on 1,500 volt DC as well as 25 DV AC has been designed and is being manufactured at Chittranjan Locomotive Works.

AC electric locomotives were imported in the earlier stages. Now CLW has taken up their manufacture. Out of 529 (AC) and 106 DC electric locomotives on line at present, 239 were imported, five of which were assembled in India, the remaining 290 AC locos have been locally manufactured.

Crash Job Scheme Till Fourth Plan End

Mysore, June 14

The crash scheme for rural employment started in 1971-72 with an outlay of Rs 50 crores, will be continued during the remaining two years of the Fourth Plan with an outlay of another Rs. 50 crores per annum, Prof. Sher Singh, Union Minister of State for Agriculture, declared here today.

Inaugurating the workshop on "Pilot Intensive Rural Employment Project" at the Administrative Training Institute, Prof. Sher Singh claimed that the scheme although was curtailed to six months in 1971-72, had made satisfactory progress.

According to reports so far received from the State Governments, he said, the total expenditure incurred amounted to Rs. 32 crores generating about 800 lakh mandays of employment. Better results were expected during the current year.

The Minister said that the crash programme had a limited objective and it was not intended to solve unemployment problem completely. Its implementation so far, had given the Government 'some insights' into the problem.

The pilot intensive scheme, Prof. Singh said, was to be taken up in 15 selected blocks to provide employment to everyone in the age group of 15-59 years who might seek such employment.

The implementation of the pilot scheme would reveal the nature and extent of unemployment in the selected blocks. This would really provide the essential data needed in formulating similar scheme for the Fifth Plan, he added.

Sri Mallikarjunaswamy, Minister for Community Development, who presided, emphasised the urgent need of preparing district plans to find out the actual areas of unemployment and under-employment in every district.

He suggested conducting a full-fledged socio-economic survey to collect all data in regard to unemployment.

Earlier, Sri G.V.K.Rao, Development Commissioner, welcoming the delegates said that a certain limited delay was inevitable in the implementation of such pilot projects.

Sri M. Ramakrishnayya, Additional Secretary, Community Development, Government of India proposed a vote of thanks.

Delegation On City Posh Hotel

Mysore, June 15

A strong protest was voiced in the Municipal Council yesterday by Congress member B. C. Lingiah against any proposal by the State Government of extending the lease to a private hotelier of the Hotel Metropole and Hotel Krishnarajasagar.

Sri Lingiah regretted that although the lease period of the hotels had expired the Government was still delaying the call for fresh tenders. The State Tourist Development Corporation was also asking the Government to handover these hotels to its management. But no action had been taken so far in this regard.

He pointed out that Sri Dharma Vira, when he was the Governor, had assured to invite tenders within a year. Sri Lingiah, urged the Government to take action immediately to invite fresh tenders or to handover the management of the hotels to the Tourists Development Corporation.

Sri M. E. Ganesh Rao and Sri Vedantha Hemmige supported Sri Lingiah and expressed surprise at the delay on the part of the Government.

President K.N. Somasundaram assured the members that a delegation of the councillors would soon meet the concerned Minister and the Chief Minister in this connection.

CIGARETTES AND YOUR HEART

During the recent World Health Organisation's publicity campaign, "Your heart is your health", it has been established beyond any shadow of doubt once again that cigarette smoking is a risk factor of heart attack besides being a cause of lung cancer, chronic bronchitis and other ills.

Scientific studies have shown that smoking makes the heart beat faster, raises the blood pressure and narrows blood vessels of the skin, especially in the fingers and toes. All cigarette smokers run an extra risk of coronary disease in proportion to the number of cigarettes smoked. Heavy cigarette smokers have higher death rates from heart attacks than moderate smokers.

A study of thousands of cigarette smokers, over a period of six to eight years, revealed that the heart attack death rate in heavy smokers was three times as in non-smokers. In studies of various population groups, it was found that death rates from heart attacks in men range from 50 to 200 per cent higher among cigarette smokers than among non-smokers, depending on the amount smoked.

During the last four centuries various punitive measures have been sought to be enforced but they failed to curb the smoking habit. In the seventeenth century more than one Pope in Rome threatened smokers with ex-communication. The Chinese in 1638 threatened to decapitate anyone who trafficked in tobacco. At about the same time doctors in Europe were discovering the harmful effects of tobacco on health. In America at the beginning of this century 12 states had enacted restrictive laws against cigarettes, all of which were later repealed.

STEPS TO CURB SMOKING

This history of tobacco makes sad reading for those who hoped that the health scares, the salutary warnings and preventive legislation would bring smokers to their senses. Recent legislative measures adopted in many countries to discourage cigarette smoking include banning of cigarette advertisements over the radio and TV and a warning on cigarette packings that 'cigarette smoking may be bad for health. In Britain, cigarette advertising has been withdrawn from commercial television. In Italy, advertising of cigarettes has been stopped altogether. In Norway, the depiction of smoking in television programmes has been materially reduced. In the United States, television programmes that carry advertising for cigarettes have to provide opportunity for the counter arguments and a lot of useful film material has been produced there and in Canada for just that purpose.

Progress made so far however, in global terms, is very limited. A million fewer people are smoking in Britain. In the United States consumption of cigarettes per head is just beginning to fall. But nothing has been achieved so far to seriously affect the overall mortality and morbidity statistics. Somehow we have to do much better. If cigarette smoking could be stopped there would be some immediate benefit for the smoker and even more for the adolescent who was prevented from starting. Cough and bronchitis would certainly be reduced. The occurrence of coronary thrombosis in middle age, and especially sudden death in young men from this cause would begin to go down and the patient who already has bronchitis would cease to deteriorate so rapidly.

(Continued from yesterday)

The crucial aspect is how to help break the habit. One study of attitudes towards smoking in Britain shows that about half the smokers habitually use cigarettes in some social situations rather than because of any craving for them. These are the people who use the cigarette to ease their position by conformity with the behaviour of the group; it has become a habit in certain overall situations. They are not driven by the necessity that afflicts some addicted smokers and they could probably stop quite easily if they were really convinced that it was worth the inconvenience of unlearning the habit. There is temporary strain on the individual in changing his pattern of behaviour and probably half the smokers simply won't face that.

The other half are really much more dependent upon smoking. Frequently these are just the people who know that they should stop. Very often they have tried and failed; in a society, predominantly of smokers, every thing is against them because it simply isn't possible to get away from the things that might stimulate them to start again. Others smoking, ashtrays and an ample supply of cigarettes deepen their own feelings about deprivation in addition to exposure to advertisement on every hand. Observations made in other countries show that both types of smokers exist in varying degrees.

If, then, this rough division is right, and half the smokers could stop if they were really persuaded, perhaps reformers need most of all to work on this group. They need to get the message across to them that there are benefits to be hadin terms of their own health and that of the health of their children who would no longer have the example of a smoking parent. There are even economic benefits. The cost of buying 20 cigarettes a day could feed a member of the family.

CIGARETTES AND YOUR HEART-III

(Continued from yesterday)

The fact is that society all over the world-it is true in India as well - hasn't faced the bald truth that we really want to get rid of the cigarette. The world production of tobacco crop touches four and a half million tons a year.

India's yearly production of tobacco is 3,50,000 tons--about 8 per cent of the total world figure and India exports Rs. 350 million of tobacco to other countries.

Meanwhile if you are a smoker and may feel you cannot stop smoking cigarette or want to cut down, remember it is the last third of the cigarette that does the most damage.

The first few draws on a cigarette are relatively harmless since most of the tar and nicotine is absorbed by the tobacco and filter.

In the 2nd part, nicotine and other chemicals start to irritate and coat the delicate tubes of the lungs with an oily tar, forcing them to produce a thick phlegm. The mixture of tar and phlegm slithers deep into the lungs where it congeals and festers.

When you reach the last third of the cigarette, tabacco smoke being inhaled becomes so saturated with nicotine and chemicals that it coats lungs with more liquid tar, causes more irritation and produces more phlegm than the other two parts of the cigarette put together. Thus, if you limit yourself to the first third and throw away the rest, you could, minimise the danger.

Improve Beedi Workers' Plight

Mysore, June 24

A wage policy so as to check migration of beedi industry from one State to another was urged by Chief Minister Devaraj Urs this morning.

Inaugurating the two-day conference of Labour Ministers of various States at the Government House, Sri Urs said that since the rates of wages in neighbouring areas were not uniform and fixed at different levels by various State Governments, the problem of migration of this industry from one State to another had to be solved at an inter-State level. TheCentre and State Governments had taken some steps but much more needed to be done.

Referring to the problems confronting the industry, he said the workers had been denied the benefit of minimum wages. He emphasised the desirability to strengthen the machinery entrusted with the work of enforcing minimum wages.

The Chief Minister also suggested extension of Provident Fund Scheme and ESI scheme to workers.

Labour Minister Azeez Sait, who presided, said in the Labour Ministers' Conference in Delhi recently some States had opposed a uniform wage policy for the industry. However, it had been agreed that a wage policy which would check migration of this industry from one State to another should be evolved.

The condition of beedi workers, he said, had remained the same since 25 years.

Earlier, Dr. H. L. Nage Gowda, Commissioner for Labour, welcomed the gathering.

Curbs On Press Undemocratic

Mysore, June 27

Any 'artificial restrictions' on newspapers or mass media of communication would be against the democratic principles, Dr. R.R.Diwakar, veteran journalist, said yesterday.

He was delivering the M. Venkatakrishnayya memorial lecture on "Journalism and the Mass Media" under the auspices of the Journalists' Association. Dr. R.S.Narayan, Association President, presided.

Dr. Diwakar said excepting legislations related to defamations and contempt of court, there should be no artificial control like restricting newsprint, stopping advertisement for criticisms, on newspapers.

Mass media like cinema, radio and television should be allowed to exercise their independence. They should not merely serve those who were in power. This would not be in tune with democratic ideals, he said.

Sri Diwakar said the growth and standard of Indian journalism was lagging behind when compared to developed countries. One of the main obstacle in their growth was the vast percentage of illiteracy.

Language papers, he said, had not reached even the standard of English press. Inspite of the dismal picture now, there was great future for them, he added.

Sri Diwakar paid rich tributes to Sri Venkatakrishnayya and recalled his services in various fields. He unveiled a portrait of Sri Venkatakrishnayya, presented to the Association by Sri Agaram Rangiah.

Sri Agaram Rangiah also spoke. Secretary B.S. Ravindranath proposed a vote of thanks.

INDIRA-BHUTTO CALL FOR PEACE

Summit Starts On Cordial Note

Prime Minister Indira Gandhi and Pakistan President Bhutto yesterday called for an end to the era of conflict and confrontation and for the beginning of a new chapter in India-Pakistan relations.

The momentous summit talks between the two countries began at Simla yesterday. The call by two leaders came in the opening remarks of the 50-minute session.

Smt. Gandhi said changes were taking place all over the world. There was no reason why the sub-continent should be left behind in an orderly development. She was sure the summit would usher in a new era of co-operation between the two neighbours.

Sri Bhutto thanked Smt. Gandhi for the warm hospitality extended to his large delegation. He repeatedly spoke of his desire for peace with India. Turning to Smt. Gandhi, he said : "Believe me, Madam, we are interested in peace. We are fed up with the path of strife and conflict".

The conference was marked by unsuspected cordiality and at one stage, Sri Bhutto remarked to Smt. Gandhi : "I am entirely in your hands. I will do as you direct".

The Pakistan President was received by Smt. Gandhi when he landed at the Anandale helipad, leading his 87-member team. With him came his 18-year-old daughter, Benazir.

A large crowd cheered when the motorcade passed through the Mall, the famous rendezvous of Simla. The crowd was one of the largest ever seen at the place.

President Bhutto was received by Smt. Gandhi with a warm handshake when he arrived for the summit talks.

Another concession he promised to consider was in respect of ryots served by small tanks.

Hurdle For Bus Nationalisation

Shift Arrack Shops

Civic Fathers' Demand

Mysore, July 1

Members in the Municipal Council yesterday strongly criticised the Excise Department for indiscriminately giving licences for arrack shops in residential areas in the city.

Taking strong exception, Sri D. Appajappa urged that the arrack shops should be brought under health regulations.

Smt. Soundaramma demanded that the arrack shops should be shifted immediately from the residential places. She also wanted that the police should insist on autorickshaws to charge according to the meter.

Sri Srikanta Sharma compalined that there was 'mushroom growth' of arrack shops and to locate them in residential areas was not proper. If the shops were not shifted immediately people in those areas might take law into their own hands he warned.

The sugar distribution was being done mostly through private depots and shops and not through the co-operative societies as was being done, complained Sri Sharma.

He alleged that vehicle tax had not been paid for the municipal lorry which had dashed against a cyclist and killed him in Srirampet recently. This was a matter to be ashamed of, he said.

Sri T. V. Srinivasa Rao strongly criticised the action of the Mysore University in terminating teachers in its own colleges while 'preaching' private colleges against any such step.

He alleged that the University had terminated about 40 temporary teachers and even the Government had done away with the services of 18 teachers in the Maharani's College.

While the University itself was guilty of having terminated teachers, it had appointed a committee to look into this complaint against private colleges, Sri Rao said.

Sri M. N. Thimmiah suggested that the mofussil bus stand should be located at the Jeevannarayanakatte grounds which was not being properly used as sports grounds by the Medical College and where a slum was coming up.

The standard of organising civic receptions to diginitories had come down very much, he complained.

Sri M. K. Lingiah demanded the resignation of Mysore MPs if they could not succeed in getting an air-link to the city. He urged the Government to open the office of the Chief Engineer of Minor and Major Irrigation in the city.

A suggestion to purchase the palace offices, gunhouse and the park-house from the Palace was made by Sri B. C. Lingiah.

A full-fledged AIR station should be started soon in Mysore, he urged the Centre.

Sri Belliappa wanted an enquiry committee to be appointed to probe into increasing corruption in the Municipality.

Sri Coutinho said that the Trust Board had not formed any new layouts in the northern part of the city.

Mysore, July 1

Sri D. Krishna yesterday took charge as the Deputy Commissioner, Mysore District.

New Rotary President Installed

Mysore, July 1

The services of the outgoing office-bearers of the local Rotary Club were praised by Sri F.K.Irani, past District Governor of the Rotary.

At the club meeting yesterday, Sri Irani installed the new President, Sri M. L. Nanda and congratulated the outgoing President, Dr. P.S. Subba Rao and his colleagues for their good work.

Dr. Subba Rao thanked the members for their cooperation and said the Mysore Rotary had its own traditions and was known for its service and hospitality.

Sri Nanda thanked the members for electing him as the President.

Earlier, Sri B. Gopal Rao, outgoing Secretary, spoke.

New Savings Scheme Inaugurated

Mysore, July 1

A new savings scheme-"Protected SavingsPlan"- for the benefit of small income groups was inaugurated by Deputy Commissioner D. Krishna this morning.

The new scheme is based on the insurance scheme and a depositor will get his full amount after the maturity of the deposit. In case he dies during the period, the full amout will be paid to his nominee.

Sri Krishna stressed the importance of savings and said savings was a national duty. He said that each Village Panchayat Accountant should be made to enlist at least 20 depositors.

After welcome by District Small Savings Officer T.H. Gopal Rao, Assistant Director Syed Basheer and Small Savings Officer Ramachandra Rao explained the new savings scheme.

Sri P. Nagachar, Assistant Director of Information, announced that his office and the District Publicity Office had become 'Bachat Offices' as all the employees had become depositors under the new scheme.

INDIRA-BHUTTO SIGN ACCORD

Prime Minister Indira Gandhi and Pakistan President Bhutto signed an agreement at 12-40 a.m. yesterday at Himachal Bhavan in Simla.

Earlier, Smt. Gandhi and Sri Bhutto met twice in a last-minute bid to make the Simla summit a success.

Both the countries have agreed to settle all the mutual problems bilaterally and not to invoke any third party. They have also agreed to abjure the use of force in settling the issues between them.

The agreement is described as "a decisive break-through towards the objective of a durable peace".

President Bhutto told a press conference that "we cannot clear the decks at one stroke. It takes time and it has to be tackled step by step before we make progress".

He said the Kashmir issue had been the main stumbling block in arriving at an agreement in the India-Pakistan summit talks, which ended yesterday.

Ban Order In Coorg Towns

The District Magistrate yesterday promulgated prohibitory order under Section 35 of the Police Act prohibiting assembly of five or more persons for seven days in Mereara Virajpet, Gonikoppal, Ponnampet, Siddapur and Ammatti. The order has been clamped as tension was prevailing in these areas due to ill-will between two communities, it is stated.

Withdrawal Of Troops Except In Kashmir

Indian and Pakistani forces will be withdrawn to their respective side of the international border except in Jammu and Kashmir, under the Indo-Pakistan agreement.

In Jammu and Kashmir both countries have agreed to respect the ceasefire line of December 17, 1971.

According to the agreement, India has to withdraw from about 5,139 square miles of Pakistani territory it occupied in Punjab, Kutch and Sind. This is an important political achievement for Sri Bhutto.

India, on the other hand, will regain just over 69 square miles of territory in Punjab and Ganganagar in Rajasthan occupied by Pakistan during the recent war.

Pakistan will continue to occupy the Chhamb area in Jammu, but it may have to yield the two posts in Tithwal sector which it captured after December 17, 1971.

The agreement comes into force with effect from the date on which the instruments of ratification are exchanged.

It has been agreed to take steps to resume post and telegraphic communications and airlinks, including overflights and resumption of trade and co-operation in economic and other fields.

Decision On Corporation Soon

Mysore, July 10

A decision on the conversion of the City Municipality into a corporation would be taken soon after careful consideration, Municipal Administration Minister B. Basavalingappa said on Saturyda.

Replying to the civic address, Sri Basavalingappa said the people of the city were demanding a higher status to the city for long time. The Government would consider the demand on its full merits.

He suggested to the Municipality to prepare a good plan for the construction of a city centre business complex at a cost of Rs. 2-3 crores behind the Visvesvaraya Buildings. He said he was not happy with the present plan. The business complex should provide for banks, offices and commercial activities.

The Minister assured that a decision regarding the problem of the shifting of the betel-leaf gardens would be taken before August 15.

Sri Basavalingappa said that no two common community members should be allotted adjacent sites. He said there should be no separate colonies on community basis. People of all communities should live together. Necessary orders would be issued for the purpose.

On a phased programme amenities like water supply, underground drainage and parks would be provided in all important towns and villages. City Improvement Trust Boards would be set up in all important cities in the State, he said.

Sri Basavalingappa asked the municipalities to give preference to areas where poor people lived while undertaking developmental works in their areas. The Government would soon issue direction in this regard. Grants would be stopped and strict action would be taken against muncipalities which go against this direction, he warned.

Municipal President K. N. Somasundaram welcoming urged for aid for construction of the business complex, setting up of industries, Mysore-Bangalore broad-gauge and Chamarajanagar-Satyamangalam rail link.

Vice-President D. Appajappa proposed a vote of thanks.

OBSTACLE FOR QUALITATIVE EDN.

Minister Blames Bureaucratic Set-Up

Mysore, July 10

Education Minister A. R. Badrinarayan yesterday blamed the bureaucratic administration for coming in the way of improving the quality of education.

Laying the foundation stone for the Rs. 3.5-crore cafeteria at Manasa Gangotri, the Minister explained the difficulties he had to face as an Education Minister.

His job was a very difficult one as it contained problems right from the primary to the college stage. It was difficult for one Minister to correct them.

Besides he had to work as an AEO or a DEO spending most of his time attending to transfers and promotions. People caught hold of legislators or some influential persons for these, he said.

If clean administration and better education was required the Minister should be left free without interferences, Sri Badrinarayan said.

Expressing concern at the increasing demands for concessions by students the Education Minister said it looked as though they were caught in the hands of politicians. Students should be away from politics, he said.

Vice-Cnancellor Javare Gowda, welcoming the gathering, said the cafeteria on completion would accommodate 185 students and have a meeting hall.

Registrar K.V. Irniraya proposed a vote of thanks.

READERS' FORUM :

Sir,

Private Lay-Out In Park

It is tragic that while there has been a cry rightly for having more lung spaces in cities, a portion of a land already earmarked for development of a park should have been alienated in favour of an individual.

The city planners had wisely left out a small and beautiful area behind the Akashavani buildings in Yadavagiri for developing it as a park. It has come as a great shock to the residents there that a portion of the area has been allotted to an individual who has already begun work on the construction of his remunerative projects. It is incomprehensible as how the Mysore City Municipal Council is winking at this vandalism.

CITY FATHERS ASSAIL CITB WORKING

Mysore, July 12

Serious charges of favouring big contractors in disposing of big and important sites in the city were levelled against the City Improvement Trust Board in the Municipal Council yesterday.

Almost all the members strongly criticised the working of the Board and some members even demanded inquiry into its affairs. President K. N. Somasundaram was in the chair.

Smt. Soundaramma said that the Trust Board had given away a portion of a public park in Yadavagiri to a contractor. Strangely the Municipality had also sanctioned a licence for construction there. The site should be resumed and the area retained as a park, she demanded.

Sri Chikkathammiah said the Board was selling away sites even in the city although it had no right to do so. Some of the sites had been sold to outsiders denying the local people.

There were many such instances and "we do not want this Chairman" who had no interest in the welfare of the city, he charged.

CONTRACTORS FAVOURED

Sri B. K. Puttiah said there were many instances where the Board had patronised rich contractors. It was regretting that what the elders had left as lung-spaces in the city were being sold away indiscriminately, he said.

Vice-President D. Appajappa, who is also a member of the Trust Board, strongly condemned the working of the Board and pointed out the places where the Board had sold away lands "almost for a song".

He demand that the Government should appoint a special committee to look into its affairs. The Board membership had remained in the hands of one group and this group should be removed from there, he said. He alleged that the Board Chairman was behaving like a "dictator".

Sri Ganesha Rao disclosed that a big site in the Radhakrishnan Avenue had been sold to a miner boy of 13 years.

He alleged that a Councillor had an hand in theBoard dealings

Sri M. N. Thimmiah of the Opposition demanded that the Board affairs should be probed by the Vigilance Commission.

The Council representatives should have resigned from the Board if their protests were not cared for, said Sri B. A. Belliyappa.

Sri M. K. Lingiah said the Board was not working in the interests of the city. Sri Srikanta Sharma and Sri L. Chikkarangappa also spoke.

ONLY SUPPORTER

While members from both the sides assailed the working of the Board, Sri B. N. Kenge Gowda, leader of the ruling party, defended the allotment of the site at Yadavagiri Park and said there was nothing wrong in giving building licence to the contractor.

Charges Against CITB Refuted

Mysore, July 13

The allegations of favouritism and irregularities made in the City Municipal Council on Tuesday against the City Improvement Trust Board were refuted as baseless and far from truth by Sri H. Kempe Gowda, Chairman of the Board, yesterday.

Addressing a press conference, he said the Board had been following strictly the rules, regulations and the instructions given by the Government in the matter of distribution of sites.

"There is no dictatorship, nepotism or favouritism" in allotting sites. There was no influential group in the Board, he said.

Referring to the criticism about the site given to a contractor in the Yadavagiri Park, the Chairman said there was no clear-cut decision that the area should be maintained as a park. It had been allotted not during his term, but six years ago. But how the Municipality had issued licence for construction there was more surprising, he said.

Sri Kempe Gowda denied that sites had been allotted at very cheap rates to contractors. There was only one instance where three contractors had been given some marshy land near Kukkarahalli tank at Rs. 2 in 1968. He was not aware whether a minor had been allotted any site, he said.

Explaining the progress achieved during his term, he said within six months of assuming office he had collected Rs. 30 out of Rs. 40 lakhs due to the Board. The Board was able to earn Rs. 10 lakhs by auction of sites instead of allotting them which would have fetched about a lakh.

Seven layouts in Kukkarahalli, north-east of Kesare, Gokulam III stage, industrial suburb I stage, Gayathripuram, straight road scheme III and IV stages and Kurubarahalli, at a cost of Rs. 1.28 crores to form 3,670 sites were under progress.

It had taken up acquisition of about 1,000 acres for 10 layouts to create 7,247 sites at a cost of Rs. 2.24 crores. It was also building 320 houses spending Rs. 66 lakhs in nine areas, Sri Kempe Gowda added.

Hospital Dr. Explains Stand

Mysore, July 15

Dr. John D. Iswariya Medical Superintendent, Holdsworth Memorial Hospital, said today that the mangement was financially not in a position to meet the demands of striking class IV employees for higher pay and allowances.

Explaining the management's stand, he told newsmen that the hospital was not receiving any aid either from the State Government or the City Municipality. If it received any assistance, the demands of the employees could be considered.

Dr. Iswariah said that the management was paying basic pay at Rs. 65-3-110, more than the basic pay of Rs. 65-2-95 paid by the Government. However, the hospital was paying DA of Rs. 25 and had offered to increase it by Rs. 10, as against the DA of Rs. 88 that was being paid by the Government. The hospital class IV employees have claimed Rs. 60 as DA.

He said out of the 11 demands put forth by the employees, the management was ready to concede four regarding uniforms, festival advance, supply of boots and torch to night watchmen and making temporary staff permanent.

He described the strike as 'illegal'. They had not resorted to process of law, Dr. Iswariah added.

Meanwhile, the employees continued their strike for the fourth day.

SALE OF PALACES OPPOSED

Bangalore, July 15

The Centre had agreed to treat the three Palaces of Sri Jayachamaraja Wadiyar in Mysore, Bangalore and Ootacamund as his personal property and permitted him to alienate these palaces, Chief Minister Devaraj Urs told the Legislature Congress Party yesterday.

Some members, including former Minister K. Puttaswamy, are stated to have strongly opposed the Centre's decision. Since the palaces had been built out of public funds by the former Maharaja, he had no right to alienate these properties. they said.

Party Secretary Gundu Rao later said that the Government had permitted Sri Wadiyar to convert the Mysore Palace into a trust to make it a 'showpiece'. The Government has proposed to acquire the 800 acres belonging to the Palace for a dairy. The other buildings around the Palace would be taken over by the Government. Any sale of these buildings by the Palace would be illegal, it was told.

Sri Surendra Nath Dwivedy, former PSP leader, yesterday rejoined the Congress Party.

NEED FOR LINK LANGUAGE STRESSED

Mysore, July 15

The need to consider seriously as to which would ultimately be the link language in the country was emphasised by Governor Mohanlal Sukhadia here today.

He was presiding over the second anniversary of 'Sudharma' the Sanskrit Daily and releasing the first volume of 'Hamsa Sandesha'. Sri Srimad-abhinava Ramanuja Parakala Swamiji graced the function.

The Governor said the problem today was to find a language to fulfil the role which Sanskrit did as a vital link between the various parts of the country. English was a foreign language. While we might use it with great felicity, it could not become the medium for our cultural unity, he said.

Although regional languages were being increasingly used and their use was absolutely necessary in our every day life and as a media of education, even they could not bring about integration of the country. Therefore, a link language which would not only be understood by all and which would be a mediam of higher cultural expression was necessary, he said.

Emphasising the importance of Sanskrit, he said India would lose its civilisation and culture if it lost Sanskrit.

Vidwan Shitiknta Sharma welcomed the gathering. Vidwan E. S. Varadacharya spoke about 'Sudharma'. Pandit K. N. Varadaraja Iyengar, Editor, presented an address to the Governor. Sri Agaram Rangiah proposed a vote of thanks.

Flow Capital Into Backward Dts

Mysore, July 17

Governor Mohanlal Sukhadia said here on Saturday that mere identifying areas as backward districts would not solve the problem of economic development there. But specific advantages should flow into these areas for their growth.

Inaugurating the two-day seminar on economic development of backward areas through small industries, he said Mysore had become a backward area taking into account the per capita income in the State. It was necessary to develop the State with more inputs and all financing institutions should give attention to this.

The Governor suggested that big industries should be compelled to procure all their simpler components from the small industries and there should also be clear demarcation between products that have to be manufactured by big and small industries. Timely supply of raw materials should also be assured.

Industries Minister S. M. Krishna, who presided, suggested to the Centre to take a policy decision in order to see that the big industrial houses invested their surplus capital in the industrially backward areas in the country for balanced development.

The State was once known for its industrial progress. Now it had slid back and had to keep company with underdeveloped States like Orissa and Assam, he regretted.

Although the neighbouring States faced similar problems as Mysore did, they had achieved good industrial growth, he said.

Welcoming the gathering, Sri B. N. Aradhya, Secretary, District Small Scale Industries Association, said the tempo of industrial development in backward districts remained slow.

Sri M. S. Parthasarathy, President, Federation of Association of Small Scale Industries, spoke. Sri H. V. Shankara Rao read the messages. Sri R. Vasudeva Murthy, Treasurer proposed a vote ofthanks.

It was a known fact that there were vested interests in the party. But the youth and the active members in the Congress would not allow the vested interests to dominate, he said.

Sri Krishna emphasised the need for closer links between the party and the public and said Mysore City had taken a lead in establishing the ruling Congress and guiding the party in a capable way. He was happy now it was opening the block congress committee offices.

Reforms By Year-End

Bangalore, July 18

Revenue Minister N. Hutchmasti Gowda said in the Legislative Council yesterday that the land reforms with ceiling would be implemented by the end of the year.

INDIA FIGHTS THE WHITE PLAGUE

India with its population of about 500 million has 2 million infectious cases of TB. Moreover, at least 190 million persons have been infected at some time; of these, 2 million active cases are spreading TB to others every minute of the day. 50 per cent of those persons with untreated infectious' cases will be dead in 5 years. Under ideal conditions 90 per cent of these people could have been cured with modern drugs in treatment that takes about a year. Using inexpensive modern methods, the National Tuberculosis Institute, Bangalore, and Chemotherapy Centre, Madras, have shown that TB can be controlled.

The basic problem is to reach the large number of men, women and children who live scattered through the towns and villages of India.

Conventional methods of treating TB patients could never treat more than a small proportion of those who need care because they involved diagnosis by highly specialized tuberculosis physicians using sophisticated tools such as large X,-ray pictures. Treatment was confined to hospitals and sanatoria and took a long period of time. This form of treatment could only cover a small proportion of the population, mostly in the cities and towns, perhaps not more than 10 per cent of India's population.

TheNationalTuberculosis Institute and the Chemotherapy Centre pioneered simple methods which offer the possibility of diagnosis and treatment for the entire population. Though a communicable disease, tuberculosis is not as highly infectious as smallpox, cholera or measles. Simple sputum tests can detect it; modern drugs can treat it successfully. BCG vaccination can prevent it.

Ignorance of the disease is less than was supposed. Only 5 per cent of infectious TB patients are unaware of any symptoms. Careful studies show that the majority are aware of their illness and that 50 per cent of those suffering from TB will receive treatment at one time or another.

QUICK DETECTION

If a patient admits having a cough for more than three weeks, a sputum test on the spot is a must. This quick test will turn up most of the contagious population who can then be treated.

TB can be treated at home it the patient takes his drugs regularly.

BCG vaccination holds promise for the future. It has been shown that BCG vaccination can cut down the incidence of disease by 80 per cent.

Fifteen million doses of freeze-dried BCG vaccine were produced in India in 1972. Production is being stepped up and the target for 1973is30million doses of freeze-dried BCG vaccine which is most effective under tropical conditions.

Children hold the highest priority in the vaccinations campaign; the BCG is usually given at pre-school age or during the period the child is in school.

Walk-Out On Palace Issue

Bangalore, July 19

Five members of the Opposition staged a walkout in the Assembly yesterday protesting against the Speaker's refusal to admit adjournment motions on the issue of the sale of Palaces of the Mysore Maharaja.

There was a stormy debate in the House for over two hours. Congress member K. Puttaswamy also opposed the stand of the Chief Minister on the inalienability clause.

Sri Urs said the Cabinet's decision to support the Centre's proposal to lift the inalienability clause was because of humanistic and legalistic grounds. On paying compensation for acquiring these palaces, he said they had to consider the pitiable health conditions of the Maharaja.

Sri Urs said the Centre had agreed to the State Government's proposal to form a trust for management of the Mysore Palace while permitting the Maharaja to sell the other palaces inBangalore and Ooty.

He said he had asked the Maharaja not to sell the Mysore Palace to anyone when he came to know that he was trying to sell it to an educational institution.

Transfers After 5 Years Suggested

Mysore, July 19

He emphasised the need to make free and compulsory education successful by making schools attractive for children. He urged the officers to identify the problems of each school in their jurisdiction and have card index for each institution.

Dr. V.J. Hudli, Institute Director, welcomed the gathering. Sri M. N. Krishnamurthy, Assistant Director, proposed a vote of thanks.

It has suggested that the backward areas should be given a 30 per cent subsidy on all capital investment, excise duties at different rates, relaxation of labour laws for five years, 50 per cent transportation subsidy, simple procedure to claim sales tax refund, setting up of industrial estates and exemption of octroi by Municipality to new units.

It has recommended setting up of a technical cell by the Department of Industries to collect data on raw material available, preparing feasibility reports and for co-ordination with various departments.

State's Name As Karnataka Okayed

Bangalore, July 22

According to reliable sources, 89 of the 131 members present at the meeting voted for Karnataka, 22 for Mysore-Karnataka and nine for Kannada Nadu. Eleven were neutral.

There were heated discussions during the two-hour debate. Sri P. Venkataramana was stated to have threatened to go in appeal to the High Command against the majority decision.

While Sri N. Hutchmasti Gowda strongly opposed the name Karnataka, Sri S.M. Krishna is stated to have remained neutral in the voting. Sri Basavalingappa opted Kannada Nadu.

Officials Blamed For Edn. Failure

Mysore, July 22

If compulsory education had not been successful it was because of the officials in the Education Department, criticised Azeez Sait, Minister for Labour, yesterday.

Inagurating the new Urdu primary school at the K.R. Mills Colony, Sri Sait strongly criticised the working of the Education Department, particularly the inspectors of schools.

He wondered without study of Kannada in language schools, like Urdu and Tamil primary schools, what should happen to the future of those students who studied there, particularly now with the Government's acceptance of Kannada as the administrative language.

It was the duty of the inspectors of schools to implement the decisions of the Government properly instead of always thinking of getting transfers cancelled.

The schools had become 'the centres of worst type of politics instead of being the centres of learning', he criticised.

Sri S.M. Maheswari, Mills General Manager, presided over the function. Sri Dwarakanath, Labour Welfare Officer, welcomed the gathering. Sri Rachappa of Ambedkar Samaj presented a memorandum to the Minister. Sri Abdul Razak, Headmaster and Meer Abdulla Inspector of Schools, spoke. Sri Naranappa proposed a vote of thanks.

Kannada At All Levels In 5 Years

Mysore, July 31

It was his desire that Kannada should become the official language of the State within five years, Chief Minister Devaraj Urs said yesterday.

Inaugurating the new building of the University Press and the Prasaranga in Manasa Gangotri, he said that there was no need to have any doubts about the future of Kannada as the Government was aware of its importance.

Emphasising the priority that should be given to mother-tongue, he said one should not lose sight of the fast shrinking world and, therefore, the need to know more languages.

Sri Urs defended the three-language formula and said besides Kannada, people should learn both Hindi and English. The fear that this would be much of a burden on the children's mind had no grounds, he said.

Although Kannada should be given all importance, the love for Kannada should not exceed the limits so as to cause the removal of study of other languages. This would only result in problem of securing employment by our youth outside the State, he warned.

Stressing the importance of the role of the universities and the teachers, the Chief Minister said they should be the harbingers of discipline among the students. If there was indiscipline among the students, it only reflected the attitudes of the teachers.

A teacher could command love and respect fromhisstudents with deep knowledge of his subject. They should not be on par with students as far as knowledge was concerned, Sri Urs said. The teachers should help in establishing new values and reestablishing old values, he added.

Vice-Chancellor D. Javare Gowda, who presided, said Kannada writers had not opposed other languages. They were aware that Kannada had to grow with the help of various languages.

Welcoming the gathering, Dr. S.Prbhushankara, Director of Prasaranga, said the building had been constructed at a cost of Rs. 16 lakhs.

Sri H. Narasanna, Director, University Printing Press, proposed a vote of thanks.

Civic Father's Complaint

Mysore, July 31

The atmosphere in the Mysore University had been vitiated with "politics and manoeuvring", alleged Sri T.V. Srinivasa Rao (Congress) in the City Municipal Council on Saturday.

Teachers and administrators in the university were indulging in "politics and manoeuvring" for power and position. Attempts were being made by some to retain one particular person in power.

Representations had been made in this connection to the President of India, he said and requested the Municipal President to explain the "activities" that were going on in the University to the Chief Minister.

Some of the Senate members had written to the Vice-Chancellor to convene an urgent meeting of the Senate to discuss the university affairs, Sri Rao said.

She repudiated as "fantastic allegations" the Jan Sangh charge that India had concluded the agreement under the dictates of Moscow.

FEATURE !

ELECTRIC TRACTION ON RAILWAYS

Electric traction means faster and cleaner travel. For long distance traffic, electric traction is the most economical form of traction, provided the density of tarffic justifies the initial investment. A recent study has revealed that the cost of hauling every 1,000 gross tonne kms. by steam works out to Rs. 7.99, to Rs. 4.78 when hauled by diesel and only to Rs. 3.71 by electric traction.

Railways have so far electrified 3,928 route kms. or 10,200 track kms. Electrification of another 1,700 route kms, has been approved for completion by 1973-74. The sections on which work is in progress are Tundla-Delhi, Virar-Sabarmati, Panskura-Haldia, Kirandul-Waltair and Madras-Vijayawada.

It is the policy of the Railway Ministry to electrify all major trunk routes interlinking the metropolitan cities of Calcutta, Delhi, Bombay and Madras, because of the heavy traffic density on these routes.

For movement of the suburban traffic in the cities of Bombay, Calcutta and Madras, electrical multiple units are being used. EMUs also have driving cabs at both ends and no reversing is necessary. The motor coach of an EMU in which the motive power equipment is mounted also carries passengers thus increasing the passenger carrying capacity of the train.

Initially, the Indian Railways were largely dependent on foreign countries for equipment and technical know-how required for electrification.

Indian Railways engineers are now in a position to engineer further schemes of electrification on their own. Design and manufacture of overhead equipment has been completely Indianised except for the import of basic raw materials which accounts for about 10 per cent of the total cost of fixed installations.

Railways now indigenously produce electric locomotives for passenger and goods haulage. A mixed traffic loco is also being manufactured in India. The dual current locomotive capable of working on 1,500 volt DC as well as 25 KV AC has been designed and is being manufactured at the Chittaranjan Locomotive Works.

In the earlier stages AC electric locomotives were imported. Now CLW has taken up their manufacture. Out of 529 AC and 106 DC electric locomotives on line at present, 239 were imported, five of which were assembled in India, the remaining 290 AC locos have been locally manufactured.

CEILINGS TO APPLY TO PALACE ALSO

Bangalore, Aug. 4

The controversial Mysore Maharaja's Palace issue came to the fore again in the Assembly yesterday when Sri M.S. Krishnan (Communist) raised the subject maintaining that the Palaces were people's property because the Government was paying for their maintenance every year and therefore they were not private properties.

Supporting him, Sri K. Puttaswamy said the Maharaja had no right to ask the Centre to remove the alienation clause. The properties were State properties, he said and hoped the Chief Minister would take this stand.

After further discussion, Chief Minister Devaraj Urs said the Centre was now seized of the entire matter and he did not want to make a statement since it might embarass the Centre. He assured he would convey the feelings of the House to the Centre. Sri Urs defended that it was only open to the Centre to modify the private property settlement and to revoke inalienable clause.

He also made it clear that any step would always be subject to the law of the land such as the ceiling on urban property.

The Chief Minister said that all parties had agreed to create a trust to convert the Mysore Palace into a museum. As regards the Ooty Palace, the Mysore Government would not have any special right in the neighbouring State. The problem was only in regard to the Bangalore Palace. The Centre was seized of this issue.

EXCITING FUTURE FOR ENGINEERS —PATHAK

Mysore, Sept. 15

The Phenomenal progress of technology in recent years has increased the potentialities of the engineering profession. The future is full of exciting possibilities for the engineer and I believe that the future lies with them, said Vice-President G. S. Pathak here today.

Speaking on the occasion of the observance of 5th Engineers Day and 112th Birthday celebrations of Sir M.Visweswariah at the Institution of Engineers, Mysore Sub-Centre, Sri Pathak endorsed the view that long term solution for the unemployment problem among engineers lay in accelerating the pace of economic development and rapid industrialisation. There was no doubt that unemployment was a passing phase. With rapid industrialisation, there would not be surplus engineers but, perhaps, a shortage.

Referring to the problem of brain drain the Vice-President said that efforts should be made to facilitate reversing the brain drain with the co-operation of private sector industries in the country. He hoped that the young men of today who sought this great profession would be inspired by the spirit of devotion and by the keen desire to work hard in the interest of the nation.

Governor Mohanlal Sukhadia who presided over the function said that only engineers and scientists could bring about a 'technological revolution' since the economy of the country depended on the technological and scientific developments.

He praised the state for having produced outstanding engineers like Sir M. Visveswarayya.

Unified Efforts For Unemployment Problem

Mysore, Sept. 15

Vice-President Sri G.S. Pathak expressed the view that a solution to the unemployment problem among engineers lies in a combined effort by the governments, industries and technical institutions.

Inaugurating the silver jubilee celebrations of National Institute of Engineering, Sri Pathak said there had to be co-ordination in planning and in implementing plans between the government, which is the planning authority, the industries which needed the engineers and technical institutions which provided engineers and technicians.

Governor Mohanlal Sukhadia who presided over the function said that engineers must be practical oriented. He urged the engineering institutions to impart practical training, which was essential for the growth of the nation.

Chief Minister Devaraj Urs who released the souvenir and declared open the exhibition called upon technical institutions to bear in mind the conditions in which the engineers had to work in our country, while imparting technical education.

CAUVERY DEAL FISHY—PATIL

Mysore, Sept. 18

MPCC (O) President Veerendra Patil strongly suspects any agreement between the three Chief Ministers concerned that they had come to an agreement to request the Prime Minister to arbiter in the Cauvery water dispute and give an award after the fact finding committee submitted its report.

Addressing Cong. (O) workers conference here yesterday, he expressed his grave concern about the deal since a judge was included in the committee which was purely technical. He felt the projects in Cauvery basin were deliberately slowed down for this reason.

Ridiculing the stand taken by the Chief Minister who had alleged that the previous Ministry had not properly planned the projects Sri Patil said that the charges were baseless.

He referred to a statement by Sri Ahuja, about the Mysore Government having given an undertaking not to intercept any water until the fact finding committee had submitted its report, and said that in light of the above statement it could only be construed that the present Ministry was deliberately slowing down the progress on the projects.

Referring to the Anti-Defection Bill, Sri Patil said that it was being introduced only to secure permanancy of absolute majority theCongress was enjoying at present.

Later addressing a public meeting, Sri Patil urged theovGernment to take a definate stand regarding the 1924 Cauvery Water agreement. The acceptance of the agreement would result in projects in Cauvery basin becoming storage reservoirs for Tamilnadu.

Presiding over the DCC workers conference, former Union Minister M.S. Gurupadaswamy said that the socialism advocated by the present Government was negative socialism. What was required was the positive approach the Congress (O) had been advocating in transferring power to people.

Prevent Sale Of JMP Collections

Bangalore, Sept. 20

The experts committee on the working of National Akademies headed by Sri G.D. Khosla in its report submitted to the Union Government recently, has suggested to both the State as well as Central Governments to take adequate steps to prevent any sale of the Jagan Mohan Palace in Mysore City.

The Committee paid a visit to the Jagan Mohan Palace Art Gallery and felt that many paintings, art pieces and valuable objects were displayed side by side with so called curios and ugly exhibits, collected over the years by the rulers of Mysore. The good pieces in this collection deserved better treatment.

A fear was expressed before the committee that the owner was contemplating sale of the entire collection to someone who would take or send the precious art treasures out of the country.

The Committee has underlined the need to constitute a machinery for assessment and accounting of the large sums of money provided as grant to Akademies for promotion of art in Mysore State.

Quoting instances of wasteful expenditure, the report pointed out the printing of a book of sketches by a Mysore artist. The sketches were apparently copies of published photographs of temple carvings which were inaccurate and unpleasing. A sum of Rs. 50,000 was spent on this.

Judicial Probe Into Varsity Urged

Mysore, Sept. 23

A strong plea for a judicial inquiry into the administration of the Mysore University during the term of the present Vice-Chancellor, Prof. D. Javare Gowda, was made by the University Senate member, Sri T. V. Srinivasa Rao yesterday.

Sri Rao, who had first raised the issue at a Municipal Council meeting, at a press conference at the University Guest House yesterday levelled charges of malpractices, nepotism and communalism in the University.

The bogus marks card racket was alone enough for a judicial inquiry, he said.

Sri Srinivasa Rao said the progress made in the University during the last three years was very little. The Vice-Chancellor, who claimed himself as a "Vice-Chancellor of Kannada" had failed to make Kannada the official language of the University. The position of the local candidates continued without any improvement and the profits earned by way of examination fee, convocation fee and medical fee were being transferred to general fund for general expenses instead of utilising for the students' welfare.

Pointing out various irregularities and creation of posts to suit their own candidates, the Senate member questioned the appointment of Dr. H. M. Nayak as the Professor and Director of Institute of Kannada Studies as he had only a B.A., (Hons) degree in Kannada and M.A. in linguistics.

Sri Rao said that the Personal Secretary to the Vice-Chancellor, Sri D.V. Urs, was holding four positions—Director of Institute of Correspondence Course, incharge of Foreign Students Welfare, Editor of the University Gazette and the Personal Secretary post—with only B. A. (Hons) qualification.

He also questioned the appointment of Messrs Ramegowda in Mangala Gangotri in Mangalore, Thippeswamy and G.S. Paramavshiviah, K.N. Shankaralingiah as Principal of Maharaja's College instead of K.H. Cheluvaraju, Shivalingiah as College Warden, Muthe Gowda as Administrative Officer, Gurusiddappa as Deputy Registrar, Panchalingegowda as Deputy Controller of Examinations and the proposal to start Mass Communication Institute to appoint Dr. Ishwar, brother of H. M Nayak, there.

Sri Srinivasa Rao said he had recommended to the Chancellor to appoint any one among Dr. Shivaram Karanth, Dr. V.K.R.V. Rao and Smt. Jayalakshammanni as the next Vice Chancellor of the University.

MYSORE STATE ELECTRICITY BOARD

IMPORTANT NOTICE

TO ALL ELECTRICITY CONSUMERS

IMPOSITION OF ENERGY CUT

It is hereby brought to the notice of the Electricity Consumers in Mysore State that there has been an unprecedented low inflow in to the Linganamakki Reservoir of the Sharavathi Valley Hydro-Electric Project during the current year. This has resulted in a short fall of the energy availability for power supply to consumers till the onset of the next monsoon. Under the circumstances, the Mysore State Electricity Board, in exercise of its power under Rule 24 of the Electricity Supply Regulations framed by the Board, under Section 79 (j) of the Electricity Supply Act, 1948, and all other provisions hereunto enabling the Mysore State Electricity Board, makes the following order :-

The Electricity Board is compelled to impose a 25% cut on the consumption of energy of all consumers commencing from **1-10-1972** under Electricity Supply Act. The percentage cut will be based on the average monthly consumption of energy of each consumer as obtained from the meter readings from the months of February 1972 to July 1972. This cut in energy may be effected by the consumer between two successive meter reading dates. There is, however, no restriction on the maximum demands. If any consumer is found to have exceeded the monthly limits (i.e.,75% of the average monthly consumption as obtained from meter readings from the months of February to July 1972) of energy consumption prescribed, a penal rate of double the normal rate he would have paid will be charged on the excess of energy he has consumed. If it is found that even at the time of the second meter reading date the consumer is exceeding the limits prescribed the installation will be disconnected without notice and will not be reconnected for a minimum period of one week.

The position will be reviewed some time in January 1973. The quantum of energy cut will be revised depending on the circumstances at that time. The inconvenience caused to the public is regeretted. The Board appeals to all the consumers to co-operate with it to enable the Board to manage with the available water of the Linagnamaakki Reservoir till the onset of the next monsoon.

These cuts in energy will not, however, apply to the following Electricity Consumers :

a) Railways excluding the Residential Colonies of Railways
b) Hospitals including Nursing Homes and Doctors' Clinics

CLEAR STAND ON TRADE UNIONS URGED

Mysore, Sept. 25

The Government of India was urged by Sri K. Kannan, MLC and Labour Leader, to take a clear stand in recognising the trade unions in the public sector so that the demands of the workers could be collectively tackled and the industries improved.

Participating in the seminar on "Industrial Relations and Productivity" under the auspices of the State Productivity Council and the Rotary Club of Mysore, he said that the Government had not taken any clear policy decision in recognising the union which had majority support of the workers because of political considerations.

The plethora of trade unions as in Nyveli project where there were as many as 50 labour unions were coming in the way of tackling labour issues and giving room for agitations and labour unrest, he said.

Sri R.K. Baliga, Vice-President of the Productivity Council, said that there should be one strong union in one industry.

Sri S. A. Srinivasamurthy, Personnel Officer, MICO, emphasised the need for effective communication between the labour and management so that the worker would not feel that he was a mere cog in the wheel.

Dr. B. L. Amla, Director in-charge, Central Food Technological Research Institute, emphasised the importance of a nutritional programme linked with hygienic conditions for labourers.

Registrar Replies To TV's Charges

Mysore, Sept. 28

The Registrar of Mysore University has, in a press statement issued here yesterday, replied point by point to the allegations of mismanagement and favouritism in the University administration made by Sri T.V. Srinivasa Rao, Senate member.

Refuting the charges that the Vice-Chancellor had indulged in groupism and communalism in securing jobs to people of his own community, the Registrar has stated that the allegations were extra-ordinary and incorrect since the University had to make references to various bodies like Senate, Academic Council, Syndicate and other concerned bodies to make an appointment.

As regards the appointment to various posts cited by Sri Rao, the Registrar has stated that the appointments were in order. As such it was unfortunate that Sri Rao had levelled allegations that needed corroboration and verification which had brought down the prestige of the Varsity.

Meet On Students Demand

Mysore, Sept. 28

A meeting of the students representatives will be convened at the Deputy Commissioner's office by Sri U. K. Subbarayachar today at 4 p.m. to consider the students' demand for cheaper hostel accommodation in private lodgings and reduction in prices in hotels.

At a meeting held at the Deputy Commissioner's Chambers, this decision was arrived at by students, hoteliers and representatives of merchants in the presence of Mr. Azeez Sait, Minister for Labour.

The representatives of the striking college students explained their problems and said that some hotels had increased prices of dishes. The room rent in private lodgings had also been increased exorbitantly and even demand of one year's full rent was being made.

Sri Azeez Sait explained that he had already discussed with the Municipal president and the Vice-President regarding increasing hostel facilities by constructing new hostel with canteen facilities in various parts of the city. It might be possible to tackle the problem to some extent by the next academic year. The Social Welfare Board was also considering the construction of a 100 room hostel for students he said.

Sri D. Krishna, the Deputy Commissioner, told the students that he had made recommendations to the Divisional Commissioner to tackle the problem and also to bring down rent in private lodgings. This too would take some time as it had to pass through legal procedure, he said.

As regards the reducing of prices in hotels, Sri Sait, said that from 1969 onwards the supply of food articles like sugar, wheat and soji to the hoteliers at controlled rates had been stopped. This had forced the hoteliers to buy these articles from open market paying higher rates.

Both the Minister and the Deputy Commissioner advised them to give up ' mob psychology '. This was a dangerous game, which would not benefit them. The Deputy Commissioner made it clear that if the students intended to resort to violent ways, they would be forced to take law and order measures.

Prohibitory Order In City

Mysore, Sept. 29

The District Magistrate has promulgated a prohibitory order under Section 35 of the Mysore Police Act, from today, preventing assembly of more than five persons and holding public meetings.

The order which will be in force for one week came in the wake of the threatened resumption of the agitation by college students against prices of edibles charged by hoteliers.

The Deputy Commissioner Sri D. Krishna who is also the District Magistrate has requested the Vice-Chancellor to close all the colleges in the city today.

Earlier, the meeting of the students representatives, college authorities, hoteliers and merchant representatives which was convened by the Dean of Students Welfare of Mysore University, Sri U.K. Subbarayachar, last evening under the chairmanship of the Deputy Commissioner could not find out a workable solution as the students refused to agree to the concession shown by the hoteliers who had agreed to reduce the prices of 4 items. The students demanded reduction of prices of six edibles and refused to agree to the settlement inspite of the Deputy Commissioner appealing to them to wait for a week for reduction in prices of the other two items in view of the efforts being made to evolve a State policy to bring down the prices of foodgrains.

The hoteliers who had closed their business yesterday decided to keep the hotels open today in view of the police assuring them protection and also not to cause inconvenience to the public.

READER'S FORUM:

THEPPOTSAVA

When there is annual Theppotsavam on Chamundi Hills and the sanctity attached to it is unquestionable, there arises no need to perform another Theppotsavam at Karanji Tank. Further, the display of fireworks is another huge waste. The lavish expenditure on unnecessary items should be diverted to constructive and public utility works for, in a poor country like India, people need material upliftment and not questionable material waste.

Dasara Procession, Parade Cancelled

Bangalore, Oct. 4

The main attraction of the Dasara festival, the pompous "Jamboo Savari" and the colourful torchlight parade in Bannimantap, have been cancelled this year in Mysore City.

The Dasara Celebrations Committee meeting under the presidentship of Sri Azeez Sait, Minister for Labour, yesterday took this decision as part of economy drive in view of drought conditions in the State.

The other programmes like exhibition, film festival, cultural programme and sports would be conducted as scheduled.

Sri Azeez Sait said that the importance of the Dasara celebration as " Nada Habba " was not reduced as a result of the cancellation of these two programmes as all other programmes would remain unaltered.

The cancellation of the procession and the parade was not unprecedented. This had been done several times in the past, he pointed out.

Referring to the criticism of neglect of State artistes in cultural programmes, the Minister said the cultural programmes would be suitably recast to accommodate the claims of the local artistes. More representation would be given in consultation with the State Lalit Kala and Sangeet Natak Academies.

According to the programmes arranged by the sub-committee, he said that out of 26 special cultural items, artistes of Mysore State had been selected for 13 items, 11 items were assigned to artistes of Tamil Nadu and two to Bombay.

Out of 226 cultural programmes listed for the Exhibition, all but 8 were assigned to artistes of Mysore.

He appealed to the public and the artistes not to make an issue of " this small error " and to co-operate with the authorities in making the festivities a success.

AUSTERE DASARA BEGINS

Mysore, Oct. 9

The famous Dasara celebrations, without its pomp and glamour and major attractions this year, began in the city yesterday.

The Palace, formerly the centre of attraction for its religious and pompous celebrations, presented a desolate look. It had been illuminated for one hour from 7-30 to 8-30 p.m.

Sri Jayachamaraja Wadiyar, who returned to the city yesterday from Germany after medical treatment, and his son, Sri Srikantadatta Narasimharaja Wadiyar, are stated to have worshipped the sacred sword and the throne in the Palace at a very simple religious function.

The cultural activities and the exhibition, the main attractions of this year, were also inaugurated. The huge "welcome" sign, to greet the visitors, had been illuminated as in the previous years.

DASARA EXHIBITION

Inaugurating the 45-day-long exhibition, Dr. Sarojini Mahishi, Minister of State for Tourism, called upon people in Karnataka to exploit the rich natural resources and develop the State industrially as well as from the point of view of tourism.

She regretted that the people were lethargic in waking up to the fast development in other areas and bringing similar prosperity in Mysore.

Smt. Mahishi suggested to the State Government to develop Ranganathittu Bird Sancutary on the lines of the Bharatpur Sanctuary in Rajasthan as an international bird sanctuary.

Sri S. M. Krishna, Minister for Industries, said Mysore District had remained backward industrially and had been decleared as a backward district for its quick development and a ten per cent subsidy would be given to all new industries.

He called for a change in the economic policies of the country for a faster rate of industrial development as in Japan and Germany.

Earlier Sri Azeez Sait, Chairman, Organising Committee welcomed the gathering and suggested putting up industries outside Mysore to maintain the city's calmness and beauty.

Sri Obedullah, Additional Director for Industries, proposed a vote of thanks.

Sri D. Krishna, Deputy Commissioner, proposed a vote of thanks.

DASARA HAS LOST GRANDEUR

Art and music had no barriers of language and region, said Sri S.M. Krishna, inaugurating the cultural festival at Crawford Hall.

Mysore was known for maintaining this outlook of catholicity, he added.

Smt. Kalpana, popular Kannada actress, regretted that the present Dasara had lost its grandeur and pomp. However, she appealed to the people to support the Government in its efforts to make the festival as attractive as it was in the past. Although the demand that Kannada artistes should get priority in such cultural programmes was justified, outsiders should not be kept away. One should not be swayed by such narrow considerations, she said.

Kumari Hema Malini, who released the souvenir, rendered a dance recital. Sri K. K. Murthy, earlier, welcomed the gathering.

Ml. Councillors Condemn Panel Chairman

Mysore, Oct. 10

Members in the City Municipal Council yesterday strongly criticised the attitude of the Chairman of the Cultural and Film Festival Sub-committee and the disrespect shown to the Municipal President in the Dasara festivities on Sunday.

Sri T.V.Srinivasa Rao, a Congress member, moved a motion to adjourn the meeting by 45 minutes to discuss the issue. It was seconded by Sri Vedantha Hemmige. Sri Rao withdrew his motion after about 50 minutes' discussion on the assurance of the President, Sri K.N. Somasundaram.

Sri Srinivasa Rao said the Sub-Committee Chairman had shown scant respect to "Kannadambe" at the film festival by speaking in English. The way the chairman had behaved in the Dasara functions was to be viewed seriously.

Sri Hemmige alleged that the chairman had distributed passes to all his relatives and friends while he had ignored the Councillors.

Sri Srikanta Sharma said at the Film Festival the Municipal President had not been given proper seat he deserved as the first citizen of the city. Even the DIG of Police was not properly treated. This was a matter of prestige and honour of the city and those councillors who were in the sub-committees should resign as a protest.

A resolution against the Chairman, asking him to resign should be moved said Sri M. Shivanna.

Sri B. K. Puttaiah suggested that the Municipal President should boycot such functions in future.

Sri M. K. Lingiah said that the purpose of the motion had been served with enough discussion and therefore it should not be pressed.

Congres leader B. N. Kenge Gowda also expressed similar opinion.

President Somasundaram made it clear that the protest was not against all members of the Dasara Committee. He assured he would convey the Councillors' feelings to the concerned.

WORK ON NEW EXHIBITION SOON

Mysore, Oct. 18

The work on the construction of the new Exhibition Building at the Doddakere maidan is likely to begin next month, Chief Minister Devaraj Urs said yesterday.

Laying the foundation stone for the Rs. 15-lakh mofussil MSRTC bus stand at the Teachers' Training College premises on the Mysore-Bangalore Road, he said a Rs. one crore plan had been prepared for making Doddakere a big attraction.The implemention of the new schemes might take some years, he said.

Sri Urs called upon the citizens to take all precautions to maintain the beauty and calmness of the city. They should plant more trees and new industries should be located outside the city, he suggested.

He called upon the officials and employees of the MSRTC to work honestly and make the corporation self-supporting. The same situation as at present in the corporation with pilferage and other maladies afflicting it could not be allowed to continue.

Although nationalisation had been done with a good purpose, the return to the Government for its investment in the corporation and its earning per km. was not enough. There was need for providing more bus facilities and the Government could not continue to adopt the "dog in the manger" policy and prevent others from operating buses, he said.

Transport Minister Azeez Sait, who presided, said 25 acres of land would be utilised in Doddakere for the new Exhibition. A children's amusement park, auditorium and an international standard sports campus would also come up there.

He said the Vasantha Mahal would be secured soon for locating the Teachers' Training College. The College premises had been bought by the MSRTC for Rs. 7 lakhs. The Bangalore-Nilgiri road in the city would be widened.

Sri Sait requested the Chief Minister to permit the MSRTC to raise a loan of Rs. 10 15 crores from banks for its expansion.

He also requested the City Municipal Council to shift the persent bus stand at Gandhi Square to the old Bus Stand in Sayaji Rao Road.

Welcoming the gathering Corporation Vice-Chariman Rahamathullah said a direct bus service would be introduced soon between Bangalore and Madurai. General Manager Puttarangappa proposed a vote of thanks.

Future Of Patels

Decision Before December

Mysore, Oct. 18

The Government would take a decision before the end of December about the future of the village Patels, Revenue Minister Hutchmasthi Gowda said here today.

Inaugurating a conference of patels in the taluk, he said the term of present patels had been extended by the Government till December and before the expiry of this period it had to take a decision whether they should be continued or not in view of the abolition of these hereditary posts.

The Minister felt that in order to look after the duties of the Government in the villages, the posts of patels were essential. He criticised the abolition of these posts by the previous Government and felt that the posts should have been abolished gradually after sufficient training to new persons before appointing them to these village posts.

A feeling was growing in the villages that the old officials were better. Besides, when the revenue officials visited the villages, there would be no official there to give them any information, he said.

Sri Jayadevaraje Urs, MLC, who presided urged the Minister to take a decision soon regarding the future of patels without waiting for the High Court verdict. It was high time that their issue was settled, he said.

Sri S. Channappiah, Taluk Patels' Association President, welcomed the gathering. Sri N.K. Javare Gowda, Secretary proposed a vote of thanks.

Mysore, Oct. 19

The foundation-stone for construction of a modern Gujari shops at a cost of Rs.5 lakhs in the Wellington Lodge to locate the present Gujari in the Gandhi Square area was laid by Education Minister A. R. Badrinarayan this morning.

Although the Gujari shops were existing in the present area for over 50 years, of recent there were motivated criticisms. The help of Education Minister Badrinarayan in this case could not be forgotten by the people here, he said.

Mandya Election Tomorrow

Mysore, Oct. 21

Election in the Mandya Parliamentary constituency, for a second time in 20 months, will be held tomorrow.

There are four candidates contesting the Lok Sabha seat rendered vacant by the resignation of Sri S. M. Krishna following his joining the State Cabinet.

They are Messrs M. Srinivas (Congress-O), K. Chikkalingiah (Congress), Rangaswamy (Hotte Paksha) and H. S. Siddappa (Independent). The real fight is mainly between the two Congress parties.

The contest appears to be keen in the Nagamangala for the State Assembly where there is a straight fight between Sri H. T. Krishnappa (Congress-O) and Sri Chigare Gowda (Congress). The vacancy is caused by the death of Sri T. N. Madappa Gowda of Congress.

Brisk canvassing has been made in Nagamangala, top leaders of both the Congress parties actively taking part in the electioneering.

Chief Minister Devaraje Urs addressed a big public meeting on Thursday night along with other leaders, Messrs S. M. Krishna, Basavalingappa, MPCC Chief K. H. Ranganath, Koilur Mallappa and others.

The campaign for the Old Congress is being actively carried on by MPCC (O) President Veerendra Patil, Sri H.D. Deve Gowda and other leaders.

The outcome of the Nagamangala Assembly constituency by-election, where a stiff fight is seen, would be significant in terms of the future political developments of the State.

Mandya Election Tomorrow

Mysore, Oct. 21

Election in the Mandya Parliamentary constituency, for a second time in 20 months, will be held tomorrow.

There are four candidates contesting the Lok Sabha seat rendered vacant by the resignation of Sri S. M. Krishna following his joining the State Cabinet.

They are Messrs M. Srinivas (Congress-O), K. Chikkalingiah(Congress), Rangaswamy (Hotte Paksha) and H. S. Siddappa (Independent). The real fight is mainly between the two Congress parties.

The contest appears to be keen in the Nagamangala for the State Assembly where there is a straight fight between Sri H. T. Krishnappa (Congress-O) and Sri Chigare Gowda (Congress). The vacancy is caused by the death of Sri T. N. Madappa Gowda of Congress.

Brisk canvassing has been made in Nagamangala, top leaders of both the Congress parties actively taking part in the electioneering.

Chief Minister Devaraj Urs addressed a big public meeting on Thursday night along with other leaders, Messrs S. M. Krishna, Basavalingappa, MPCC Chief K. H. Ranganath, Kollur Mallappa and others.

The campaign for the Old Congress is being actively carried on by MPCC (O) President Veerendra Patil, Sri H.D. Deve Gowda and other leaders.

The outcome of the Nagamangala Assembly constituency by-election, where a stiff fight is seen, would be significant in terms of the future political developments of the State.

Dasara Programmes Yield More Income

Mysore, Oct. 24

The film festival and cultural programmes held this year in connection with the Dasara festivities had been a success and more revenue than in the previous year had been realised, Sri K K. Murthy, Chairman of the Sub-Committee, told newsmen this morning.

Addressing a press conference, he said Rs 64,449 had been realised by the film festival this year as against Rs. 39,000 last year. The cultural programmes had yielded Rs. 79,235. The total provision for the film festival and the cultural programmes was Rs. 2.62 lakhs and all the money provided had not been drawn, he said.

Sri Murthy maintained that local artistes had been given more opportunities. Out of 33 cultural programmes, only 13 were given to outsiders and the rest to the local artistes. He regretted that co-operation and encouragement by the local musicians on the days when there were programmes by local artistes was lacking.

He pointed out that on the day when there was the music programme by Sri Thitte Krishna Iyengar the collection was only Rs. 6 and on the day of Sri Chintalapalli Ramachandra Rao, it was Rs. 2. The highest collection was on the day of Smt S. Janaki's programme, Rs. 18,331, followed by Mukhesh Rs. 16,500.

More Paddy Procurement

No Rationing

Bangalore, Oct. 25

The State Cabinet yesterday decided to procure one-third of the marketable surplus of paddy with the growers at a higher rate than at present and also not to extend informal rationing to other areas but to sell procured grains through co-operatives and fair price depots.

After two days of detailed discussion, the Cabinet felt that complete take-over of the wholesale trade in foodgrains in the State would involve many problems and therefore it decided on "partial take-over" which would have a sobering effect on prices.

One of the important decisions is to procure paddy at Rs. 70 per quintal under the procurement scheme. The levy price is Rs. 54. But there will be no difference in retail selling price. This procurement will be in addition to procurement under the levy system at fixed levy prices.

Another suggestion is to prevent hoarding of grains by wholesale merchants by fixing a limit beyond which one cannot purchase paddy from the growers.

In order to make up the shortage, the Cabinet decided to ask the Centre for an additional allotment of 30,000 tonnes of wheat per month to meet the needs of the scarcity areas.

The proposals have been sent to Delhi through the Chief Secretary, Sri R. J. Rebello, for approval.

VITAL ROLE BY POSTAL COURSE

Mysore, Oct. 26

Education Minister A. R. Badrinarayan here today underlined the importance of correspondence course in imparting education and called for its full exploration in the country.

Inaugurating the first national seminar on correspondence course at the CFTRI, he said that one was more or less tempted to embrace this new idea atleast as a panacea to the problem of student and teacher indiscipline. Geat deal still remained to be explored in this area in a country such as ours where resources and particularly technological means were inadequate.

Calling upon the Vice Chancellors to help in making available the educational resources of the community to the youth at all levels, he said education was not confined to school going age group. Life and education could not be separate and they were more or less co-extensive and synonymous. We should do all our mite to help the society towards the goal of life and learning.

Praising the Mysore University for being a pioneer institution in the State in starting the correspondence courses, he suggested making available language lessons to the entire country through correspondence course. This could lead to atleast a diploma or certificate course in Indian languages.

Vice-Chancellor D Javare Gowda in his presidential address said that correspondence courses had a vital role to play. Equalisation of opportunities would not become meaningful until a system of education was evolved in which those who handicapped and destitute were enabled to overcome the handicaps.

He suggested a departure from the traditional degree pattern by making each year of the three year course both a terminal and a continuing one.

Prof. Gowda requested the Education Minister to consider making the Mysore University the nucleus for an open university in the State.

Sri N. K. Vakil, President, Indian University Association for Continuing Education and Dr. Begg, Director of Correspondence Course, Delhi University, spoke. Dr. D. Jagannatha Reddy, Vice-Chancellor, Sri Venkateswara University, Tirupathi, released the Mysore University journal "Hamsa".

Sri D. V. Urs and Dr. Amrik Singh, Secretary, Indian University Association for Continuing Education welcomed the gathering. Sri Shital Prasad, proposed a vote of thanks.

PREMIER STUDIO INCIDENT

CIVIC FATHERS DEMAND PROBE

Mysore, Nov. 1

A vehement demand for a public inquiry into the film artiste's controversy and immediate suspension of the police officers "for failing to give protection at the Premier Studios" was made in the City Municipal Council yesterday.

Sri Vedantha Hemmige, Congress member, who made a bitter attack on the police said that they had failed to give protection when" some goondas instigated by theChairman of the Dasara Cultural Sub-Committee raided the studio and harassed film artistes including Kumari Jayalalitha".

He said the whole incident had brought the Government and the people of Mysore into "disgrace".One individual could not be allowed to behave like a dictator. He urged the Government to immediately remove Sri K. K. Murthy from the Sub-Committee Chairmanship.

Sri Vedantha alleged that the theatre owners were being constantly threatened to screen only Kannada films. He urged that necassary protection should be given to them.

Sri Srikanta Sharma, supporting Sri Hemmige, alleged that a police van had taken some"goondas" to the Premier Studio to attack, instead of giving protection to the film artistes.

The Chief Minister, who was also having the home portfolio with him, should have taken action immediately against the police authorities and the Sub Committee Chairman, he said.

He urged the President to write to the Government and convey the members' strong sense of "indignation over the police failure". The people of Mysore had to bow their head in shame because of the incident, Sri Sharma said.

Sri T.V. Srinivasa Rao, (Cong) also strongly criticised the police for their "failure".

Sri M. N. Thimmiah, Sri B. K. Puttaih, Smt. Soundaram and Smt. Kamala Raman criticised the action taken by the Commissioner to delimit municipal divisions for municipal election

Sri J.P. Sharma, Commissioner, maintained that he had acted according to rules and there was no need for him to consult the council in this regard.

There was a mild breeze between Sri L. Chikkarangappa and the Commissioner.

Addressing a children's rally at Kanteerava Stadium, Governor Mohanlal Sukhadia referred to the drought conditions in the State and said these and other problems required the most serious attention of the Govrenment.

Outside the Vidhana Soudha they honoured Chief Minister Devaraj Urs by placing the famous Mysore turban on the Chief Minister's head.

They also honoured Smt. K. S. Nagarathnamma, Sri H D.DeveGowda, Mayor M. V. Thiwari, Sri B.Shivamurthy Sastry, Sri V. R. Naidu and Sri R. Anantharaman.
